THE TREE TRAGEDY

Greetings dear Family and Friends, The month of April has socked me with a few surprises. I am so thankful for your prayers; things could have been much worse. Please keep praying.

1: The tree was 40 feet
2: The tree fell across the driveway into the front yard

3: The gardener is 6 ft tall, the tree trunk is 20" round, solid pine
4: Massive limbs and leaves to cut

5: 5 men working with a chainsaw for more than 4 hours cutting the trunk into 4 ft lengths.
Day 2; 6: using a machete and slasher, cutting what seemed like an endless pile of tree debris.
Day 5; 7: days of cutting up branches and making mulch by hand...no machines. Still many days to finish cleaning up all the debris. And it is RAINY SEASON.

There are so many challenges in life, but God has promised us His peace and joy in every situation. As I have traveled this journey, I am ever grateful for God's amazing care for me and my family. No one was injured. We have had to adjust our plans, but His plans will be accomplished in the midst of the challenge. All praise, honor and glory to Him!

I really don't like asking for money. However, as a faith-filled missionary, in order to continue in God's service in discipleship and mentoring I really need your help. I need no less than \$200.00 each month to facilitate this ministry. When you make your contribution, and you would like me to continue, please be sure to write DISC/BL/TC in the same place you write that the gift is for ALICE LIMPert. *Thank you!*
