

Merry Christmas

Dec. 2025 Newsletter

In the song “O Holy Night” we sing “the thrill of Hope, a weary world rejoices”. It’s been a season in Tanzania where people really need hope. We have been able to continue to encourage and support our teams, as they continue in ministry, with our support, even during our short season stateside.

The school is not only named Hope, but a true **beacon in the community** with daily and ongoing opportunities to minister to many employees, students, and their families. After recent closure of churches, the staff gathered for their own service and spent time together surrendering to God, so that they could open the doors ready to pour out that Hope to the community that needed it so desperately.

Local area pastors are greatly encouraged because of our village outreaches. The impact of the sports and discipleship ministries is causing their churches to be bursting at the seams with young people seeking to continue to learn about Jesus. In recently launched outreaches in the Islamic area, we see leaders overflowing from their own, very costly encounters with Jesus **bringing Hope** to their neighbors. What a privilege to be a part of this!

Love The Noahs

For those who are looking for a place to partner heading into the end of the year, please consider partnering with us. We haven’t yet met our needs with rising inflation and changes in some partner’s circumstances. We are specifically looking for more partnerships to assist us personally. We need partners to help us obtain more Bibles in Swahili. We also need ministry outreach funds that allows us to continue to meet monthly to disciple and reach students whom we have not reached yet. Every partnership is tax deductible in 2025 if processed before January 1st.
