"Behold, God is my salvation; I will trust, and not be afraid: For the Lord YAHWEH is my strength and my song; He also is become my salvation. Therefore, with joy shall you draw water from the wells of salvation." Isaiah 12:2-3

Dear Family & Friends,

Mexico- Cartel shut down the city on Sunday February 22, 2026

When we got on the highway to go to church, I noticed smoke on our left. This was one area that the cartel had just set on fire, and we didn't know what was happening. We were going to visit at Pastor Jorge and Rosa's church this day. After church finished it was announced what was taking place in the city. We decided to stay at the church while some people went home. At one point someone from the church told us that the cartel had just arrived in town a few streets over and were walking the street. The men were in masks. We all went upstairs to be in a safer place. A.W. had been checking to see about the route we could take home but all routes that we needed were not safe. On the main street they burned a car at the gas station 3 minutes from our house. They burned a pharmacy 10 minutes from our home. That day our daughters were at home and safe. The USA government told the US citizens to shelter in place. Many people didn't have food in their homes and when the Mexican government lifted the stay in place order people rushed to the stores. The lines to buy tortillas were 3 blocks long. Some of the stores only opened for a few hours so that people could buy what they needed. Our neighbor spent 2 hours in line to buy the essentials they needed. Things quieted down a few days later. Things are now back to normal. The cartel tried to put fear in the people because one of their leaders was killed by the Mexican army. Praise God for his protection.

God's protection again and again

I was cooking the other day on the back left burner, but I had bumped the front right burners knob and didn't realize it, when suddenly the right front burner flamed up and both burners went out. I didn't get burned and was able to turn everything off and start again. I (Kathy) was sitting in a plastic chair in the office when suddenly it broke and I fell to the ground. Our cat Luna was on my desk looking at me with such a strange expression. My knee twisted as I fell and by the next day, I had pain that lasted almost 2 weeks. Thankfully I am better now. Praise God! We thank You Lord for Your protection once again.

Leaving our Airbnb after a weekend of ministry A.W. tripped on the step and hit the wall just outside of our door on the second floor. So thankful that he caught himself and that he didn't fall down the 15+ stairs.

A few minutes later A.W. went to get the truck and it wouldn't start. A person across the street was just getting back and helped us jumpstart the truck. God got us home safely and a short time later A.W. went to start the truck and it was dead again. We took our other vehicle and got a replacement battery. There are so many more things that have happened and God has continued to protect us through all of them. We are so thankful to the Lord!

Thank you all so very much for your prayers and support. Lots more to tell you about the ministry this month, but I am running out of space. A.W. has been interpreting for the past week for Prophet Gordon Hofer. They will have been in 12 meetings in 10 days. In a little over 2 weeks A.W. will be traveling to Manzanillo for a month of ministry. There is a lot going on here, God is moving and lives are being changed. A.W. is beginning our stateside trip calendar next week. If you would like us to come and share at your church, please send us an email to awloveskathy@hotmail.com and include your phone number. Our transfer to Dial pad phone service when Skype terminated their service, has not been flawless. Many of the numbers are not listed with the names making it hard to keep in touch.

In His Service,

A.W. + Kathy Jones
