

Compelled By Love

THE NOAHS IN EASTERN AFRICA - FEB. 2024

Our time stateside was busy and blessed, but we were ready to return to what has become more like “home” as we began January. **We got back to Tanzania and hit the ground running within twelve hours of landing!** There were so

many genuine embraces from our community here that were happy to have us return, and we got right back to work alongside them!

We’ve hosted about 20 hours of trainings this month! A highlight for April was meeting with teachers and hearing how they were living out of identity in their role. One pair of teachers in particular, shared that God had shown them a focus for this year in their classroom of “excellently loved,” and shared testimonies of learning and healing in their own lives and those of their students. Transformation and growth was evident!

Some of the teachers and students who were involved in recent trainings.

The guys at the medical clinic earlier this month.

We hope it’s okay to share the hard along with the praises. While we have felt great joy in being back, this month has been a little extra difficult. We have moved houses and faced several major illnesses (see pictures). As I write this, it seems two more are now getting sick. Navigating severe illnesses here is much harder, but we are thankful for community here and there that have served us in different ways. We have felt the prayers of our partners carry us, and we feel it is important to share the hard with you along with the joy.

Not only us, but several of those we work with seem to be facing a little “extra” right now. We sometimes see a pattern that there is extra pressure before big breakthroughs, and we know some things coming up that have great significance. We so appreciate your faithful prayers that give us strength when our own is lacking.

We are sustained and compelled by His love. We appreciate that so many of you are a part of His expression of that to us!

Love The Noahs

Every day life here in Tanzania.

We traveled between countries and changed home locations this month.
