1st Peter 4: 1

Possessors of the kingdom of God on earth, possess Christ on earth and the qualities of the kingdom appear in your life. Comfort, filling, mercy, involvement of God in your lives and Respect from God. Therefore, we rejoice in God's Presence.

It is then, that the Kingdom is Manufactured in you!

It is then, that the manifestation of the kingdom is by then you plant the kingdom of God in others!

When Jesus chose Andrew and Simon Peter, James and John, He said, Follow me and I will make you fishers of men.

Jesus said here in this message. Follow me, inhabit the Kingdom, enjoy the heaven on earth but Hell is still here and as the enemies of God hated Him, they will hate you also but I have created you to be Salt and Light!

I. Personal Transformers:

You are the Salt of the earth!

SALT BURNS/ SALT DISINFECTS/ SALT SEASONS/ SALT MAKES THE WAY FOR HEALING AND HEALTH TO EXIST!

Salt, unlike Pepper, salt is essential for our health, salt is used to balance our system. Salt is used to produce Leather, glass, plastics pharmaceuticals. We add salt to our food for taste but salt is more than taste and comfort for food, more than half of the products produced for our lives involves the chemical of salt.

70 percent of the earth's surface is covered by salt water!

Salt and the environment:

First, along with temperature, salt directly affect seawater density (Salty water is denser than fresh water) and therefore the circulation of ocean currents from the tropics to the poles. These currents control how heat is carried within the oceans and ultimately regulate the world's climate.

Second, sea surface salinity is intimately linked to Earth's overall water cycle and to how much fresh water leaves and enters the oceans through evaporation and precipitation. Measuring salinity is one way to probe the water cycle in greater detail.

In the last half-century or so, the subtropical Atlantic has been getting gradually saltier – as less than 1 percent increase in real terms, but an effect that is nevertheless significant. It may sound like a small thing but when fresh water is taken from the ocean the saltiness gets greater and the temperature gets hotter and affects the climates.

LIGHT---You are the Light of the world!

Studies show that light pollution is also impacting animal behavior, such as migration patterns, wake and sleep habits, and habitat formation. Because of light pollution, sea turtles and birds guided by moonlight during migration get confused, lose their way and often die.

In short, Salt and Light are two of the Central elements that affect the health of the planet and the balance of nature.

Jesus is saying that we have that we, like Salt and light affect the balance of this world as it relates to the Kingdom and just how much we have on earth today.

When Adam and Eve fell and were thrown out of the Garden, the effects on the planet also suffered. As you and I come back to Eden, our world is affected in the other way!

Light from the sun warms the earth, drives the global weather patterns and all life-sustaining process of photosynthesis, Light feeds the planet life feeding us. Light feeds trees that produce oxygen. Light is responsible for all life, producing even our breath. The Oceans magnetic fields around the planet, gravity, warmth and even the weather is Light dependent.

Light makes life worth while but even more, light produces life!

An Earth without Salt and light is a world only existing for a brief moment. Therefore as Jesus said that we are the salt and the light, He was saying that we will be the sustainers of life. The Kingdom of God makes life worth living yes but an earth without the kingdom is not long!

II. Persecution keeps the Salt and the Life sharp!
