ANNUAL REPORT 2017

Welcome to
CENTER
CHURCH

INPUT & OUTPUT

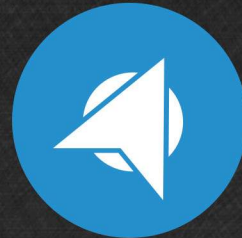

Generally, churches measure input, such as attendance and giving and things of that nature. Things we can count. But there's actually another way of measuring church effectiveness and that is output, as in how many people in our congregation read their Bible on a daily basis and share their faith regularly. This year we're going to add output to our focus, because if the output is happening God will take care of the input.

MISSION OUTPUT

GOD'S GOOD NEWS

Center Church regular attenders shared the gospel personally with **131** individuals.

Regular attenders gave **177** Invite Cards to people.

70% of our congregation prays regularly for someone who does not know the Lord.

These statistics are the results of the Spiritual Formation Survey.

In other words, these are the “outputs” of the gospel in our lives.

When the “outputs” are happening, the “inputs” will follow.
