

The Python Spirit

Justice in the waters assignment

June 7, 2019

The octopus is a python water spirit: it strangles its victims: a python represents fear of total failure or losses that you can't escape. Fear being destroyed by an enemy that never lets go once they get a grip on you. A problem or negative situation that feels too strong to free yourself from. Believing that once something gets leverage over you that you'll never escape it.

Different from a spirit of fear which takes away our natural breath and gives us anxiety, the python takes away our spiritual breath and we may not even be aware we are under attack.

It leaves us second guessing and doubting our spiritual authority or anointing and looks and feels like mere insecurity. But the python is sucking the spiritual life out of us!!

The python spirit simply masquerades as a thing with power, taking people unaware if it can; and it chips away at attacking what Holy Spirit does/gives: the breath and freedom of the Lord.

The Octopus: is a spirit of mind control, its tentacles grow back, it lays dormant in small places when detected and waits for a better time to re-emerge. It sucks its prey into the mouth and cuts it to pieces for digestion. This spirit cuts people into pieces (shattered) making them think unrelated or contradictory ways. It can also be obsessive self-evaluation, over thinking, second guessing etc. Convincing someone that unbiblical things are ok with God. It sucks the life out of you.

The octopus has 8 snake like tentacles with suck cups used to move and strangle its prey. They grow back if cut off. The tentacles have some autonomy, working independently.

Eight tentacles that keep growing back

1. Religious / Homosexual
2. Political / Narcissism
3. Mammon / Poverty
4. Intellectual
5. Jezebel / Ahab
6. Baal
7. Orphan / Rejection
8. Leviathan

The head: Python/ mind control attacking the sonship of a believer and robbing our authority as a result. To kill an Octopus you must bite it between the eyes. We are advancing into the decade of 80 (Hebrew year 5780) which represents the mouth. Between the eyes is where the third eye/new age doctrine focuses. In the coming decade we will advance against the delusions of the new age.

How is the Octopus Spirit attacking the Ecclesia?

1. We are gaining ground against the eight spirits mentioned above but at personal costs that are not necessary.

The real attack is our sonship which is the mind control straggling our spiritual life and causing us to walk in self ambition instead of resting in the Lord.

2. These eight spirits resurface later in other areas and arenas.

3. We must allow The Lion of Judah to bite the head of the Octopus and put an end to the attack on our identity in Christ as sons and co-heirs.

Justice in the water assignments June 20-27, 2019

California: In prayer Our team saw a huge Octopus with its head rising out of the water just off the coast and all eight of the tentacles were up on the land spreading across the whole state. We asked for Father to destroy the mind control of the New age movement and the delusions stemming from that. As we prayed we saw the Lion of Judah rise up out of Ohio and roared across the nation, drawing the octopus up and into His mouth (decade of 5780) . As he did the state of California shook and the waters bubbled up. In the next week after this encounter California had three earthquakes. A testimony in the natural of what is about to be unleashed in the spiritual as Jesus rises up on our behalf to destroy the Octopus.

Ohio: Perry and I went on assignment to pray over Lake Erie in Cleveland. As we released joy and justice into the waters I saw the Lion of Judah hovering over the lake. He inhaled to roar and the waters parted revealing an Octopus Spirit. The Spirit was sucked up into His mouth (decade of 5780). We began to rejoice that the mind control over the city and state effecting the economy and Family mountains was being removed and justice would return. As we continued to pray a ship called "Lake Guardian" passed us coming out of the harbor into the lake. It was the Environmental Protection Agency. We took that as a sign that God was releasing angels to carry out the writ of assistance for the healing of the water! I began to pray for the gems to emerge out of the water from the bottom of the lake. All that the Octopus Spirit had stolen would be returned. As we finished praying another boat came out of the Harbor. This was the US Geological Survey ship! Again the angel hosts are going to be returning the gems that have been lost or stolen! The following week an article appeared in the USA Today. The Mayflies have returned to Lake Erie covering the city of Cleveland. The Mayflies are a sign that the lake is healthy again. They hatched for the first time since the 70's the exact day we prayed! Thank you Jesus for the confirmation in the natural that our prayers are being answered!

Ohio and California are being connected for Revival! Rt. 80 extends through Ohio from New York to SF. This Rt. Is a pathway for revival in the nation. Again it is the number 80 for mouth! Oh taste and see that the Lord is good!! This next decade will bring the Manifest Glory of God to our nation! It will be the decade of 2020 perfect vision! We will see the salvation of our God!
