

THE BATTLE AND THE DEVIL OPPOSING US | PART 3

1 Peter 5:6-11

DISCUSSION GUIDE:

1. As we learned from our text, there are three ways believers can overcome the enemy – an ongoing set of attitudes, an ongoing set of actions and a never-ending counter strategy to engage the devil in battle. Of these three, do any of them surprise you? Do any of them seem harder than others? If so, why? Which aspect of the three spoke most to you?
2. What is the primary difference between humility in reference to others and humility in reference to God? What do each of these very different types of humility lead to? Why is humility before God necessary to battle our enemy?
3. Spend some time discussing the following statement: spiritual pride makes us easy prey. What does this mean?
4. How are we to be sober-minded and watchful? What is the difference between the two and why are they important?
5. What hope do we have as believers knowing that we face a determined enemy more cunning and more powerful than we could ever be? What can and what should we do given this very real reality?
