

Digging Deeper Study Guide

Deuteronomy 23-32

Brief Summary:

In this week's episode, Teddy highlights how God is not looking for perfect people, but trusting people who remember who they are and whose they are.

Teddy explores how the greatest battles we face are often not "out there," but within our own hearts and minds, where trust and fear compete for control.

He then examines how God, the Author of life, sets before Israel two paths: one leading to life and blessing, the other to destruction. God's desire and plea is that His people would choose life.

Finally, Teddy looks at Joshua and his calling to trust not in his own strength or ability, but to be strong and courageous because God is with him.
