

# Digging Deeper Study Guide

## Deuteronomy 5-12

### Brief Summary:

In this week's episode, Tony explores how Moses reminds the generation about to enter the Promised Land of what God has already done for them, and what He is about to do through them, as they carry the Kingdom of Heaven across the Jordan.

Tony examines how sin and doubt can grow out of “temporary amnesia” — forgetting who God is, what He has done, and how deeply loved we are by Him — and how the remedy is to remember.

Finally, he challenges us to examine our hearts and consider how easily we can desire God's blessings and protection more than His presence, even though His presence is what should be most precious to us.

### Study Questions:

1. What would it look like for you to intentionally remember God, what He has done, and who you are to Him?
2. What good things has God prepared for you that He is asking you to walk into with Him?
3. If you're honest, which do you desire most — God's provision, His protection, or His presence? Why?

### Prayer:

End your time in prayer to God our Father, to the Holy Spirit, and to our Lord, Jesus Christ.
