

Digging Deeper Study Guide

Hebrews 11-13, James 1-5

Brief Summary:

In this week's episode, Tony wraps up Hebrews and takes us through James, highlighting faith—not just as belief, but as something meant to be lived out in community, stirring one another on toward love and good works.

He then looks at Hebrews 11—the Hall of Faith—pointing out that these were ordinary people with deep trust in God and His promises, and challenges us to lay aside anything that hinders our walk with Jesus.

Finally, Tony examines the authentic and loving community described at the end of James—one that rejoices together, confesses sin, prays for one another, and pursues and restores those who have wandered.

He challenges us to honestly examine our lives and consider whether we are truly living out this kind of faith-filled community.
