### SAVED BY THE BELL

We have all heard this term and probably have never considered its source.

It means to have a narrow escape from danger, perhaps by an unexpected intervention.

There is dispute as to how this phrase actually originated, with some sources pinning its beginnings in boxing, but there is also a particularly interesting and somewhat gruesome alternative theory, that takes the phrase back to the Medieval times.

In the distant past, doctors sometimes couldn't distinguish a comatose state from death, with several instances being recorded of people being buried alive, which soon became a common fear.

To solve this problem, people built mechanisms that connected a coffin to a bell using a string. These safety coffins enabled a person who supposedly woke up from a coma to pull at the string, and the ring of the bell would then alert other people, resulting in the unfortunate victim's rescue.

However, there is no evidence of people being saved by using these contraptions. To be saved by the bell to fight another round or to rise from a coffin and live again?

We do know that when your soul separates from your body and flies out into eternity there is no coming back. To be with God forever or to be without God forever.

That is why God says,

"For he saith, I have heard thee in a time accepted, and in the day of salvation have I succoured thee: behold, now is the accepted time; behold, now is the day of salvation." -2 Corinthians 6:2
