

The Same Room **Discussion Questions**

1. In the sermon, we talked about the healed man being “evidence, not an argument.” What are some ways your life has changed because of Jesus that the people closest to you would recognize?

2. Peter spoke with boldness because he had been with Jesus. What is the difference between trying to “be bold” and living from overflow?

3. The Sadducees built their authority on empire and crowd. What are some unstable things people build their identity or security on today? Where are you tempted to do the same?

4. Why do you think it is so tempting to talk about faith in vague ways without naming Jesus directly? What does that reveal about fear, comfort, or cultural pressure?

5. The sermon asked, “Is there anything about your life right now that requires an explanation?” How would you answer that honestly today? What might God be inviting you into?

These questions should spark deeper reflection and meaningful conversation about the key points of the sermon.
