

West Ridgers, two nights ago Rachelle Connolly (West Ridge's Family Promise Graduate Mom) went to the hospital with pneumonia and panic symptoms. The doctor gave her a sedative that stopped her heart. They performed CPR for 5 minutes and brought her back. Now she is in the ICU on a ventilator, not responding to prompts. We will gather tomorrow between services (10 minutes after the end of first service) to pray for Rachelle.

**I would love to see you there, Pastor Dave**
