Executive Functioning Questionnaire

Next Monday, the 5th grade scholars will complete an **Executive Functioning Questionnaire**. Executive functioning skills help with planning, organizing, focusing, regulating emotions, and managing daily tasks.

These skills are vital for everyday responsibilities—such as getting ready for school—as well as for academic success, building relationships, and preparing for future careers. The questionnaire will help us identify areas where scholars may need extra support. With this information, we can provide strategies and tools to strengthen these skills, building confidence and success both in and out of the classroom. Thank you for your continued support in helping us equip our scholars with the skills they need to thrive both in and out of the classroom.
