

SCIENTIA ET MATHEMATICA

OUR SAVIOR QUADRIVIUM

Logic Science

The Moving Earth

The Earth's lithosphere is active and creates rifts, mountains, volcanos, earthquakes, faults, and trenches. Scholars will explore the affects of the movement of the Earth's crust since the Flood.

Science Labs

We are exploring electromagnets, continental drift, and the subduction of dense plates.

Repeating

Algebra I

In Algebra, scholars are solving equations with polynomials by factoring.

6th Grade Math

Scholars are dividing with decimals including terminating, repeating, and non-repeating, non-terminating answers. Rounding is a must.

Save the Dates for our Spring PTL Events!

TEACHERS - KNOW ANYONE?

School Nurse:

Job Opening for 2025-2026

Donut Fridays

**This friday, March 28th,
7th Grade families will
continue to raise funds for
their Washington, DC trip.
\$1 each (Cash Only).**

Need Extra Credit?

Science - Orally recite the entire Periodic Table of Elements to Mr. Prestwood. (50 points to any quiz or homework).

Book Drive!

We have seen an increase in children moving through/toward parking lots unattended and far beyond a parent's reach. **Children may not be alone going to or from cars and should only be picked up in designated areas.** Please monitor children carefully (within arms reach) when walking to play areas or when moving about in parking areas. We want all scholars and siblings to stay safe!

Morning Drop Off Policy: Scholars may NOT exit cars prior to 7:45 a.m. to wait outside of buildings. Morning extended care is open in the cafeteria starting at 7:15 a.m. each school day for those needing to arrive early. **Please bring scholars to the cafeteria OR they must remain with adult supervision until official drop off beings at 7:45 a.m.** Early arrivals (left unattended) will be checked into morning care and charged accordingly.

Thank you for supporting our safety measures and school policies!

**WE INVITE THE ENTIRE OSL COMMUNITY
TO JOIN US FOR THIS SPECIAL EVENT**
