Seventh Literature
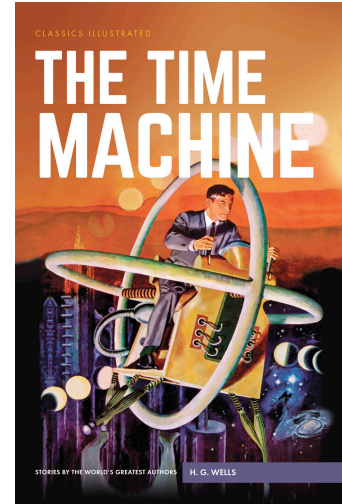

"The Open Window" by H.H. Munro

Framton Nuttel, visits the countryside for a nerve cure. During his visit, Vera, the niece of Mrs. Sappleton, tells him an interesting story about her aunt's husband and brothers who died in a hunting accident. Framton's imagination takes over. The shocking conclusion occurs when the real men return, causing Framton to flee in terror. Vera easily explains the abrupt exit of Framton to her aunt by telling her the reason he's afraid of dogs. Vera in Latin is Truth.

Eighth Literature

The Time Machine

by H.G. Wells

The Time Traveler has formulated another theory about humanity in the future. His theories are the extreme results of Communism and Capitalism. Finally he realized after evolving/devolving into two species of humans.

Literature Learn By Heart Extra Credit

Next Learn by Heart Extra Credit week is

Martin Luther's "A Mighty Fortress" worth **50 Points**

Due Friday 10/31

Logic I

The Seventh Graders discussed the three ways to convert propositions into their logical equivalence- **Obversion**, **Conversion**, and **Contraposition**.

To Obvert a statement- 1. Change the quantity of the statement. 2. Negate the Predicate

All S is P	becomes	No S is non-P
No S is P	becomes	All S is non-P
Some S is P	becomes	Some S is not non-P
Some S is not P	becomes	Some S is non-P

To Convert a statement- Interchange the Subject and predicate terms

No S is P	becomes	No P is S
Some S is P	becomes	Some P is S

The Contraposition a statement- 1. Obvert the statement. 2. Convert the statement. 3. Obvert the statement again.

All S is P	becomes	All non-P is non-S
Some Sis not P	becomes	Some non-P is not non-S

Logic II

Conjunctive Syllogism

The major premise is a conjunctive proposition which denies that the two propositions contained in the major premise can be true at the same time.

Both … and

Conjunctive syllogisms are valid when they deny by affirming, but are not valid when they affirm by denying.

Moods of Disjunctive Syllogisms:

Tollendo Ponens
Invalid

Ponendo Tollens
(Denial by affirmation)

Disjunctive syllogisms are valid when they affirm by denying, but are not valid when they deny by affirming.
