

# SCIENTIA ET MATHEMATICA

## OUR SAVIOR QUADRIVIUM

### Logic Science

#### Rocks

Scholars will take a deeper look at rocks. We will compare different types of rock to determine the best environment for fossils, artifacts, and more. The chapter test is this week (Thursday).

#### Science Labs

We are creating artifacts and fossils.

$$\begin{array}{r} 2.95 \overline{) 944.0} \\ \underline{295} \phantom{0} \\ 944 \phantom{0} \\ \underline{295} \phantom{0} \\ 649 \phantom{0} \\ \underline{590} \phantom{0} \\ 590 \phantom{0} \\ \underline{590} \phantom{0} \\ 0 \end{array}$$

$$x = \frac{9.440}{2.95} \cdot \frac{100}{100} = \frac{944}{295} = 3.2$$

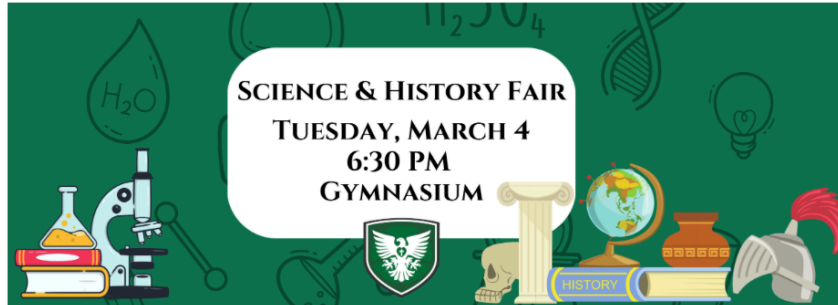

$$2.95(3.2) = 9.440$$

## Algebra I

In Algebra, scholars are factoring using the pattern of the difference of squares to factor polynomials.

## 6th Grade Math

Scholars are solving equations with division of decimals. Please encourage your scholar to take their time and be careful with the decimals.

Don't miss the annual Science and History Fair on Tuesday, March 4 at 6:30pm in the gymnasium. See fantastic projects and visit our living wax museum for a night of learning and fun!

## Donut Fridays

**This friday, March 7th,  
7th Grade families will  
continue to raise funds for  
their Washington, DC trip.  
\$1 each (Cash Only).**

## Need Extra Credit?

Science -  
What causes  
earthquakes, volcanoes,  
and tsunamis?

**Spring Break - Early Dismissal  
Friday, March 7 at 1:00 PM**

**Summer Camp 2025**
