

Noteworthy News

Welcome to the 2025-2026 school year! I pray that you had a wonderful and restful summer break.

I will be sending out a newsletter the first week of every month. This will include all classroom music classes 3rd through 8th grade as well as 6th grade religion.

Singing in Church

Every year OSL shares the talents of our scholars with the Sunday congregation as they help lead in worship. Below are the dates that show which class will be singing. More information will come as the time grows closer. Feel free to add this to your calendar now.

October 5: Fifth grade classroom music scholars

November 2: both 4th grades

February 1: both 3rd grades

March 1: Logic School classroom music scholars (6-8)

Musicplayonline

OSL purchased a subscription to this program last year and the scholars really enjoyed it. It is completely free for you. Follow these steps and your children share with you what we're doing in class. I will be sending links throughout the year.

1. Go to musicplayonline.com
2. Log in as a student
3. Add code j388407

From there, you can select from the menus. Like I said, I'll share the links with you of things we've covered.

Recorders

As has been our tradition, the 4th grade music class learns to play the recorder and will perform for various programs and festivals throughout the year. I will be ordering these and handing them out in the next week or so. The recorders and books are the scholars to keep. Should they break or lose one, they are responsible to replace it. Recorders and books are both \$10.00. If this should happen, please let me and the office know asap so we can replace.

If you ever need to get in touch with me, please do not hesitate to reach out. I pray that our year together is one filled with beautiful music God's praises.

Blessings,

Jeff Armstrong
