Memory Work

He saved us, not because of works done by us in righteousness, but according to His own mercy, by the washing of regeneration and renewal of the Holy Spirit. Titus 3:5

Sacrament of Holy Baptism.
What benefits does Baptism give?
It works forgiveness of sins, rescues from death and the devil, and gives eternal life to all who believe this, as the words and promises of God declare.

Which are these words and promises of God?
Christ our Lord says in the last chapter of Mark: Whoever believes and is baptized will be saved, but whoever does not believe will be condemned. Mark 16:16

ALGEBRA I EXTRA CREDIT THIS WEEK

Long division for polynomials is performed the same as arabic numbers (1, 2, etc). The only addition is to remmber the rules of exponents when multiplying and dividing. Use long division to solve this division problem. $(2x^2 - 3x + 2) \div (x + 2)$

Divide:
$(2x^2 - 11x - 20) \div (2x + 3)$

$$x - 7 + \frac{1}{2x+3}$$

$$
\begin{array}{r}
x \quad\ -7 \\
2x+3 \overline{)\ 2x^2 - 11x - 20} \\
\underline{-2x^2 - 3x} \downarrow \\
-14x - 20 \\
\underline{+14x + 21} \\
1
\end{array}
