OUTDOOR LEARNING

It's Zz week, so we walked outside and found zig-zags in nature: in

leaves, sticks, pine needles, etc. We talked about other zig-zags in nature: mountains, lightning, clouds. We even looked for zig-zags in the iris of our eyes.

SCIENCE

Fizzy exploding Ziplock bags! What happens when you mix vinegar and baking soda in an open Ziplock bag? What happens when you zip it? Explosion!! Why? Because the Co₂ gas gets trapped in the sealed bag and the acid base reaction between the vinegar and baking soda make it explode.
