child the importance of listening and following directions so that we can learn as much as possible to be prepared for the next level of education. This next Quarter and a half goes very swiftly and activities increase.

Academic workload is increasing in amount and difficulty. Be sure to read through this newsletter, your scholar's assignment planner, and FACTS so that you can continue to support your scholar at home. If there is a disparity, your child's planner should be the most accurate, as we write what is actually accomplished in class. STRESS TO YOUR SCHOLAR THE IMPORTANCE OF WRITING ASSIGNMENTS IN THE PLANNER THEY ARE GIFTED. This is the best communication tool (scholar to self and supporting adults) we have.

Also, please be asking your child to see work returned to them. Usually, work is returned on Fridays. However, I do return tests during the week so that if a test needs to be revisited for mastery-because the score is below 85-there is time to review before retaking. We go through the answers together as a way for all of us to review concepts. I also write on the test the scheduled date of the retest.

Speaking of writing notes on tests/quizzes, remember for any tests (not Math, English, or Latin) or quizzes with grades below 70, scholars will be given an opportunity to fix answers and return. Return by dates are written on the initial copy and a clean copy is attached. Don't let your child miss out! I would love to see more 5th grade scholars receive Honor Roll recognition for 3rd Quarter!

LIBRARY VOLUNTEERS!! If you can help in the library for our class, please let me know. We go every other week, normally from 12:20-12:50 on Tuesdays. FEBRUARY 10 is now covered! We could still use a volunteer for FEBRUARY 24. PLEASE LET ME KNOW ASAP if you are able to assist.

Healthy scholars experience better academic success! Please help your child make **healthy choices**, like choosing **healthy snacks (not candy)**, washing hands, covering coughs, and getting a proper night's sleep. Absences make learning more difficult since much of our material is presented orally.

I hope all of you are taking advantage of the amazing opportunity that you have been gifted through the Smart Families presentations. The information is extremely valuable in understanding the mental development of your child. **The information is not just about smart phone use.** The next presentation is about improving connections! I don't think any of us have this perfected. Be sure to tune in, either live or by recording. I know that I've benefitted from the information presented!

Nightly practice of Latin Vocabulary and Multiplication facts is necessary for scholar mastery of each subject. We USE multiplication throughout our year in Math. WE HAVE NOW REACHED A CONCEPT THAT REQUIRES A SOLID, WORKING KNOWLEDGE OF MULTPLICATION so this needs to be automatic. Learning a new language, like Latin, takes constant practice as well.

We ALL need support navigating safely through the ever-changing technology universe! **Have you joined Parent ProTech yet?** Make sure you take advantage of this resource to aid your child(ren) as they grow up in this fast-paced, ever-increasingly dangerous, environment. See the newsletter for the link to join!

HOW'S THE SCIENCE/HISTORY FAIR RESEARCH COMING? By this time, at least 1 resource should have been found, notes taken, and source recorded. Maybe even 1 photo or graphic found & saved. Don't forget to record these sources as well! **Monday, February 9 PLEASE SUBMIT the Works Cited List as is.**

MARCH 2! Due date for History/Science Project. Details went home with your child and a separate email was also sent concerning this project. Hopefully you have started investigating the topic your scholar picked. This project is to be a scholar-guided family learning opportunity.

I don't mind more than one scholar researching and reporting on the same topic. Each scholar brings their own interests and viewpoint to these projects. I've never had 2 identical projects. BE SURE TO RECORD each of the resources used for the WORKS CITED page! It's easier to make this as you go than to try to remember where you found all the information.

SCHOOL REMINDERS

Let's be sure our scholars are set for success this fall.

Smart Families

We invite all families to adopt four shared norms to support student well-being: prioritize family and values, delay smartphones until high school, delay social media until at least age 16, and support a phone-free school day.

IN CASE YOU MISSED OUT ON ANY OF THE SMART FAMILIES PRESENTATIONS-Go to the school newsletter and access the archived version. Listening to each of them will be well worth your time!

Be sure to check into the next presentation! The link is available through the school newsletter. It is about the **sense of belonging: connection vs. closeness**, something we can all use information about!!

WE DID IT!!!
