Next Tuesday, bring an item that has the **short vowel /o/** sound at beginning or in the middle. For example, octopus or mop, *not* open or stone.

LETTERS & NUMBERS

- Introduced Vv.
- Introduced 9. Things related to nine: baseball innings, nine-sided shape is a nonagon, cloud nine, Jesus healed ten lepers – one returned to say thank you, and nine did not, months of human pregnancy, squares on a tic-tac-toe board

SCIENCE

- Science was part of our Winter Wonderland Day! Question: what is blubber? Penguins, seals, and polar bears have blubber. They don't get cold in the freezing water of the Arctic Circle. People will get very cold when they put their hands in ice water for a long period of time. We will cover one hand in blubber – Crisco – and leave the other exposed, then see how long we can keep both hands in the water. Then we'll discuss *how* humans stay warm when it's c-c-cold.
