

Scientia et Mathematica

Our Savior Lutheran Quadrivium

Week 15 - Trinity 22

This week, families gather together to share in the Thanksgiving Feast. I am thankful for God's love, the scholars that He has placed in my classes, and the families of those scholars.

THANKSGIVING FEAST

Logic School presentations and feasts will be at 11:05 to 12:25. Please refer to the school newsletter for specific times for each house.

6th & 7th Science

This week, scholars are exploring Kinetic and Potential Energy types with a focus on thermal energy.

8th Science

We are continuing our projects of growing plants and corn. Scholars are studying bacteria and its importance to human life. We are culturing bacteria in the classroom.

Algebra I

Scholars will be writing and graphing linear inequalities.

Tests:

Make-up tests - Nov 19
Alg I - Nov 21 Ch 12

Labs:

Nov 18 - 8th
Nov 19 - 6th & 7th

Memory Work

In the same way, let your light shine before others, so that they may see your good works and give glory to your Father who is in heaven.
Matthew 5:16

The First Petition of the Lord's Prayer:
Hallowed be Thy name

What does this mean?

God's name is certainly holy in itself, but we pray in this petition that it may be kept holy among us also.

How is God's name kept holy?

God's name is kept holy when the Word of God is taught in its truth in purity, and we, as the children of God, also lead holy lives according to it. Help us to do this, dear Father in heaven! But anyone who teaches or lives contrary to God's Word profanes the name of God among us. Protect us from this, heavenly Father!

Astronomy Club

The astronomy club will meet on the soccer fields this Friday evening at 8:00 pm to view the constellation Leo and Uranus, which will be at its closest point to Earth. All scholars grades 3 - 8 and their parents are welcome.

Science Fair - 7th

Scholars will be needing to nail down their topic for the Science Fair soon. The testable question with their independent and dependent variables needs to be signed off by Mr. Prestwood no later than Dec 5. That is only 1 week after Thanksgiving Break. We already have a lot of great ideas from what they are talking about. However, as their parent, you **can** say no to a project.

MATH EXTRA CREDIT THIS WEEK

Graph the following inequalities on graph paper and shade the area that is true for all equations:

$$y < -x + 4$$

$$y < x + 4$$

$$y > 0$$
