## LETTERS & NUMBERS

- Introduced Kk.
- Introduced 15. Things related to fifteen: learner's permit, squares across a Scrabble board, the waters rose 15 cubits (22.5 feet) over the mountains (Gen. 7:20), pentadecagon (15-sided shape).

## OUTDOOR LEARNING

In honor of St. Patrick's Day, we walked around campus to find clovers – three and four leaf. We watched a short video on the real St. Patrick, who used three-leaf clovers to explain the Holy Trinity – Father, Son, and Holy Ghost – one leaf, but three petals. One God, three persons.

## SCIENCE

We made kinetic sand! I brought back some sand from Egypt for the kids. We made kinetic sand using

regular sand, baking soda, dish soap, and water. It's fun and satisfying to watch the sand "drip" from your hands. How does it do that? It has to do with surface tension and cohesion. The dish soap coats the sand particles, trapping a thin layer of water around them, making the sand stick together when pressed tightly, but also loose and easy to fall apart.
