

News for Kindergarten

Trinity 15

September 26, 2025

Dear Parents,

I am a grandma again! My son and daughter in law had their 4th child, a baby girl, on Wednesday.

Please remember to send a note in the folder if you are picking your child up before lunch or if you are bringing lunch.

With all of the after school activities, clothes get mixed up easily. Remember to put your child's name in EVERYTHING! There is a lost and found box located in the gym by the boys restroom. Check it often. You may not even know that you were missing items.

On this coming Monday, Mrs. Duerr will present to the kindergarteners about the Philippines since it is in Asia. Mrs. Duerr is from the Philippines and moved to the United States when she was 20. She will also be bringing some Philippine food for the scholars to try.

Please consider giving to the Eagle Fund. If we reach our goal by Dec. 31, we will get one more day of Spring break!

Grandparents Day is October 10. Invite your special person now. School will be dismissed at 11:30.

October 15 school is dismissed at 2:15 for parent conferences.

No school on October 16 for parent conferences.

This week:

Religion: God appears to Moses in the burning bush. Moses goes to Pharoah. God sends 10 plagues until Pharoah lets the Israelites go. Then the Israelites cross the Red Sea.

Math: Counting 0-9, less and greater, least and greatest, circles

We had fun playing a game of war. They won.

Phonics: Gg is for goose. We made geese out of Gg. We listened for words that start with /g/ and printed Gg. We practiced writing in sand, on white boards, and on paper. The scholars did very well with dictation and writing.

Lock Words: see, stop, to

Literature: Gregory the Terrible Eater, Three Billy Goats Gruff, Goatlocks, Green Eggs and Ham, Gruffalo, Solid and Liquid, What the World is Made Of? We have begun The Secret of the Hidden Scrolls: the Great Escape to coincide with the story of the Exodus.

Science: solids and liquids: We melted wax. When it hardened it took up less room. Usually items in the solid state take up less room than in the liquid state. Water is the exception. We also used thermal energy to change ice to water/liquid.

Geography/History: We talked about Golgotha and the Wailing Wall in Isreal, the Taj Mahal in India, the Great Wall of China in China, the Kremlin and St. Basil's Cathedral in Russia.

Art: Kandinsky's Squares with Concentric Circles

Next Week:

Memory:st Article: I believe in God the Father Almighty, maker of heaven and earth

Religion: Israelites in the desert.

Math: counting 0-9 and writing numbers

Phonics: m

Geography: Philippines

Science: Sink or float

Art: The Roofs of Barcelona in Moonlight by Picasso

In His Service,

Debbie Armstrong
