Fast Changes

We are living in a time of very fast change in our nation. One change is the

intention of government to be in charge of everything. The government wants to be in control of all medicine and healthcare. They want to tell us which drugs and treatments to take or not to take. They want to be in charge of all education and tell teachers what they must teach-- and not teach. The government wants to know how you spend your money. They now get reports from one's bank or credit union if a transaction is \$5,000 or above. They want to lower that trigger point to \$600 for an entire year. The list goes on.

As believers, our main focus needs be hearing Jesus who said that all authority belongs to Him whether in heaven or on the earth. The government would like to disable the church, but it's not working. (See the story on the back page.) More people are listening to the Gospel now than ever before. New technology enables the message of Jesus to cross language barriers and space barriers as never before.

Let's organize our lives to be a part of heaven's great election where there is no possibility of fraud.

Growth News:

There are people being added to the body of Christ around the world every day. In times past, we only heard about these victories as belated statistics. Now, with the wonders of the Internet and *Facebook*, we can view the baptism within an hour and see the new believers, too. Christians in Africa have smartphones, Internet access and *Facebook* accounts.

This is a photo from the Ghana work of **Scott Sheridan** in Africa. There were eight baptized at the same time.

For decisions and baptisms in the United States, a *Facebook* site by **Cris Jesse** is informative. It is called “Another One Baptized.” He tracks every baptism that he hears about and posts a photo and a little of the background story. The photo of **Lauren Priest** baptizing **Jean Bohn** is there as well as the baptism of **Aiden Hall**.

When we get to where the information is, we can rejoice in the daily world-wide growth of the Body of Christ. We are part of a Kingdom that will not stop growing. Persecution may slow down the information, but may very well accelerate the growth of the message and the growth of the church.
