## **A Banking Concern**

Add “debanking” to your vocabulary because it’s here. The ex-Prime Minister of England has been cut off from his personal funds. Truckers in Canada who peacefully protested something their government did were cut off from their bank accounts. Stories are appearing every week of depositors in the U.S. who have been separated from their funds and can’t get a reason from their bank.

Some have been cut off because of their religious beliefs, some because of their comments on Covid and masking. Other can’t find out why their funds were absorbed by their bank.

It might be helpful to set up a second account in another institution and keep funds both places. That would cost almost nothing and allow the depositor to buy their groceries. I have grown concerned because I send funds abroad and this could be interpreted as funding violence. Actual I send funds for purchasing Bibles and feeding the hungry.

For background, here is an article from *Newsweek Magazine* on the Internet.
