

4/12/26

Welcome / prayer

Dot connection.

Remember Tucker Carlson interviewing Catherine Fitts and she said

<https://www.youtube.com/watch?v=NU7P5ETRnXQ&t=1s>

- ~\$21 trillion in “unaccounted” federal spending
- Used to build ~170 underground bases
- Some allegedly under oceans

Why the bunkers? They see something we don't.

Bill Wood / ex navy seal discusses his work on Project Looking Glass

https://www.youtube.com/playlist?list=PLq9uLOWjoHHrPGh_P4815IJFCUbXdeOsv

Modeled future timelines based on different decisions

Let analysts “test” outcomes by changing inputs

☑ The key turning point:

- At some point (he ties it to ~2012),
- all modeled futures started converging to the same outcome
- No matter what variables were changed:
- Political decisions
- Military actions
- Economic inputs

→ the result didn't change anymore

Ben Davidson, a content creator gathered NASA data and showed a quickening of the weakening of the magnetosphere that shields us.

South Atlantic Anomaly – already been pole shifting (earth has up to 8 magnetic poles, they fight each other, causing a weakening of the magnetosphere.

Jesse Beltran / Ed Szall – expound on his work on disintegrating magnetosphere

This is happening

Nanotech is already deployed at scale (as we've discussed)

This will make everyone *with it* an amplifier for track/trace/control

95% reduction in body emissions after taking Zeolite-Z

They suggested multiple global trends are converging, including:

- magnetic instability
- technological integration
- geopolitical tension

Framed as leading toward:

- a single major disruptive period or event
- not necessarily fully defined, but inevitable

Jack Kruse

Interviewed by Ed Szall and Jesse Beltran –

He ties it all together

Why they are building bunkers

That the government knows this is happening

That they don't realize how fast it is happening

It's disturbing, Rev 16:8, Isaiah 24 earth reeling like a drunken man

- Jack's takeaway – get to know your local magnetosphere
- Our takeaway:
 - If this is your home, you should worry.
 - If it is not your home and Christ is truly your inheritance, then we need to stay on target.

Welcome / prayer

It's really easy for us to watch someone sin and then stigmatize them with that sin so we think of them by that.

It's equally easy for us to look in the mirror and see that same stigmatization.

Both are unbiblical and (thus) untrue.

Back to the Jews – current ones were painted in a bad light to a new king and work was stopped.

The 'enemies' painted a 1-sided case to a new king.

It made sense to Artaxerxes but that's because he hadn't seen the 2nd half which was the change that God molded in His people

Look at Zechariah 1 e.g.

Zec 1:12 Then the angel of the LORD said, "O LORD of hosts, how long will You have no compassion for Jerusalem and the cities of Judah, with which You have been indignant these seventy years?"

Nor did the king dig to see that Cyrus made this proclamation.

What else do you see in this chapter, of the bad guys rabble rousing & frustrating work?

If God calls you to a work, will it always go as planned?

Consider the death of a promise.

- Gideon.
- Abraham.
- Jacob
- David.

Even to Jesus – as seen by the 12 disciples

It gets resistance, testing of faith, might even say 'made impossible'.

So that no man may boast, so God gets the credit due Him for making it happen.
