Welcome / Prayer

Depopulation –

[Prof.](#) Dr. Arne Burkhardt, a German pathologist, presents an unsettling slide show revealing that in vaccinated males, the spike protein from the COVID vaccine has entirely replaced their sperm.

"If I were a woman of childbearing age, I would reconsider starting a family with a vaccinated partner!"

[World](#) Bank – backed program getting nations to sign onto a commitment to place farmers under new restrictions intended to reduce emissions of methane gas.

Reduce methane gas, not improve production.

Untried / Untested (sound familiar)? Now in food production

The nations signing onto this pledge to transform their farm policies are the United States, Argentina, Australia, Brazil, Burkina Faso, Chile, Czech Republic, Ecuador, Germany, Panama, Peru and Spain.

Make no mistake, this is a war on food.

Do you see the war on energy? Get electric cars, don't charge them?

See the war on Ukraine?

Netherlands – cutting livestock herds by 50% to reduce methane right now

The U.N., World Economic Forum and other NGOs have been promoting meatless diets and the consumption of insect protein for years, and billionaires have invested in massive insect factories being built in the state of Illinois, in Canada and in the Netherlands, where meal worms, crickets and other bugs will be processed as additives to be inserted into the food supply, often without clear labels that will inform people of exactly what they are eating. Bill Gates is also partnering with other billionaires to invest in the production of lab-grown meat, a process that involves using cancer cells from cows, chickens and pigs to quickly grow artificial meat.

Remember the Deangel Forecast? Someone?

Remember the Georgia Guidestones, what they said? What did you think it would look like?

Club Of Rome spokesperson -Dennis Meadows (author of Limits to Growth)

"We can have 1 Billion people with freedom, or 9 Billion slaves. We're at over 7 Billion right now, so we need to bring that down to 1 Billion. I hope that culling can be peaceful and slow and equal between rich and poor."

Remember Prince Philip – biggest problem is overpopulation, wanted to come back as a virus and take care of that? (1988)

Solutions? What do you do knowing that they are attacking our food supply?

Idalia in the garden. Just 1 x 50' row of radishes would be easily a year's supply of radishes if processed by dehydrating, powdering, and preserving in mylar to be added to casseroles, stews, soups, and smoothies.

Anyway, overarching theme – obstacles to immersing in God's Word

How do we reach people without the gospel?

How do we share the gospel without sharing the Word of God?

We covered "alive and active" –

What is God saying, speaking to you? You find out in the Word.

Obstacles – I don't have time to read a book right now, so some things are suffering.

Not reading as much bible but memorizing right now.

What happens when you memorize?

- Purify me with hyssop
- having washed her with the Water of the Word
- Heb – I will put my laws into their minds
- teaching of your parents – they will speak to you, how much more the quickening of God's word?

Glove illustration – The Word of God gives structure (like the frame of the trailer house)

(replacing rotted structural wood on a mobile home)

It cannot die

1Pe 1:23 for you have been born again not of seed which is perishable but imperishable, *that is*, through the living and enduring word of God.

Imperishable, enduring. **What's the 'FOR' there for?**

1Pe 1:22 Since you have in obedience to the truth purified your souls for a sincere love of the brethren, fervently love one another from the heart,

Remember Heb 4:12 Living & Active – context = many won't enter His rest because of disobedience.

24 For, "ALL FLESH IS LIKE GRASS, AND ALL ITS GLORY LIKE THE FLOWER OF GRASS. THE GRASS WITHERS, AND THE FLOWER FALLS OFF, ²⁵ BUT THE WORD OF THE LORD ENDURES FOREVER." And this is the word which was preached to you.
