Welcome / Prayer

News

[Unvaccinated](#) NY teachers' fingerprints sent to FBI with problem status attorney John Bursch stated in open court that unvaccinated teachers in New York City were flagged with problem codes in their personnel files, and when that occurred "their fingerprints are sent with that flag to the FBI and the New York Criminal Justice Services." from the affidavit unvaccinated teachers were given a "problem code" label that was "then sent to the national databases at both the Federal Bureau of Investigation" (FBI) and the Department of Justice (DOJ).

[CDC](#) Adds Original COVID mRNA Vaccine to Childhood Schedule

[NET](#) ZERO - UK government's Nudge unit has just published its report on forcing us into a dystopian future you did not choose.

It includes what you will eat, wear, buy & be punished for!

[Brazil](#) UBI system based on vaccination status newly selected socialist / globalist Lula da Silva just decreed that the Bolsa Familia program will require family members to be vaccinated in order to continue receiving benefits.

"We can't play, it's a question of science. If I have 10 covid vaccines to take, I will take all that is necessary".

CBDCs will be the rails for UBI programs, with these 5 capabilities (as we've discussed before)

#1) [Expiry](#) dates / use-by dates:

- if you lose cash it's gone. if your digital is somehow/fraudulently stolen it can be replaced
- your digital cash will simply expire after so long of a period, making it useless

#2) "[Anti](#)-hoarding" features

- Saving for the future is being rebranded as "hoarding" and it is becoming officially unfashionable because personal savings reduces dependancy on the state. The easiest mechanism for achieving this will be through negative interest rates on savings accounts

#3) Total Information Awareness

- Once it's digitized in a centralized database (central banks) as opposed to being cryptographically secured on a decentralized blockchain (Bitcoin) – everything becomes known to central authorities instantly. Taxation can be applied per-transaction, but more interestingly – prices can also be modified on the fly.
  - Fighting an unpaid fine? Candy bar costs 30% more now.

#4) Social Credit Systems

- Imagine if "LoonCoin" was a thing last year when the #FreedomConvoy hit Ottawa (and signalled the beginning of a worldwide revolt against Covid tyranny). Instead of emailing a list of bank accounts to be frozen that were cribbed from a (hacked) spreadsheet, they could simply direct the Bank of Canada to turn off everybody's digital wallets who were in the vicinity of the protest, or who contributed to their crowdfund, or who retweeted the #HonkHonk hashtag.

#5) [Carbon](#) footprint tracking

[Lots](#) of weird sightings of UFOs being shot down, and strange appearances in the skies [memes](#) can be hi-density prognostication

Compassion series – "how do we talk to homosexuals?"

We interact with them the way Christ did with us

- we interact with them
- we are touched with the very feeling of their infirmities

- they are sick, they went further down a road than we currently are

We visited the Sermon On The Mount – **what's that? where is that?**

Jesus: If you are dwelling on it, you can be a killer, an adulterer etc

Since the pattern is here, you can BE anything you are dwelling on, by dwelling on it alone!

In other words – sin happens in the mind.

If you still haven't picked up that the heart hardens when we sin willfully,

**Professor**, Gary Wilson (anatomy/phys., pathology, neurochemistry of addiction, mating & bonding)

- Ted Talks
- The Great Porn Experiment
- *Your Brain on Porn: Internet Pornography and the Emerging Science of Addiction*

The men at their computers looking at porn ... had been seduced into pornographic training sessions that met all the conditions required for plastic change of brain maps. Since neurons that fire together wire together, these men got massive amounts of practice wiring these images into the pleasure centres of the brain, with the rapt attention necessary for plastic change. ... Each time they felt sexual excitement and had an orgasm when they masturbated, a 'spritz of dopamine', the reward neurotransmitter, consolidated the connections made in the brain during the sessions. Not only did the reward facilitate the behaviour; it provoked none of the embarrassment they felt purchasing Playboy at a store. Here was a behaviour with no 'punishment', only reward.

The content of what they found exciting changed as the Web sites introduced themes and scripts that altered their brains without their awareness. Because plasticity is competitive, the brain maps for new, exciting images increased at the expense of what had previously attracted them – the reason, I believe, they began to find their girlfriends less of a turn-on

**Play Dough – can shape it from ball to pancake, then back to ball again**

(example, John Mayer)

interview in evidenceunseen.com

As a case in point, John Mayer has slept with many of the most beautiful women in Hollywood (e.g. Jennifer Love Hewitt, Jennifer Aniston, Jessica Simpson, Taylor Swift, etc.). And yet, in a recent interview with Playboy, Mayer explains how currently he prefers (Pornography) over sex with an actual woman

NY Mag did a piece on this

For a lot of guys, switching gears from porn's fireworks and whiz-bangs to the comparatively mundane calm of ordinary sex is like leaving halfway through an Imax 3-D movie to check out a flipbook.

We're considering homosexuals, I would add ANYONE caught in a sinful lifestyle (name some?)

Where does sin begin? Does it begin when the man unbuttons the secretary's blouse?

- It begins in the mind.
- BUT if left to grow it has a gestation period.
- This is one form of abortion I believe in (imprisoning the thought before it becomes full blown sin)

**James** 1:14 But each one is tempted when he is carried away and enticed by his own lust. <sup>15</sup> Then when lust has conceived, it gives birth to sin; and when sin is accomplished, it brings forth death. <sup>16</sup> Do not be deceived, my beloved brethren.

Carried away / enticed – an angler or fisherman's term, dangle the bait in front of them

'carried away' – drawn out from, only place used in NT here

ex-elko –

ex = out of,

elko =

- Peter drew his sword.
- Jesus said throw the net, they weren't able to DRAW it back in for the multitude of fish

Once a fish is baited properly and hooked, it can be drawn ex-elko, (out of – the water)  
Proverbs – like the ox to the slaughter

Then when lust has conceived – what does this mean?

Ps 7 David crying out to God for justice against the wicked, about whom he sings,

14 Behold, he travails with wickedness, And he conceives mischief and brings forth falsehood.

Again, the wicked in Job 15

35 "They conceive mischief and bring forth iniquity, And their mind prepares deception."

Nobody who is solid through & through suddenly goes out and becomes a full-on hedonist.

IT STARTS IN THE MIND.

- It gestates
- It expands & takes shape in many areas of your thinking, like leaven

(A warning given about selfish people – be careful what you receive from them because gifts aren't free

In it, a morsel of wisdom is found:

Prov 23:6 Do not eat the bread of a selfish man, Or desire his delicacies; <sup>7</sup> For as he thinks within himself, so he is. He says to you, "Eat and drink!" But his heart is not with you.)

As a man thinks within himself, \_\_\_\_\_?

- He starts becoming the person he is living in his mind
- 'act out' begins to materialize

He is as he thinks

We are / we become what we dwell on

- Why are sexually deviant individuals the way they are? Did God just make them that way?
- (first of all, what IS sexual deviance – TODAY??)

(he who walks with wise will be wise, companion of fools suffers harm)?

So we see sin happens in the mind.

Do we sin with our minds?

How?

Romans 2: 21 you, therefore, who teach another, do you not teach yourself? You who preach that one shall not steal, do you steal? 22 You who say that one should not commit adultery, do you commit adultery? You who abhor idols, do you rob temples?

- "Do you steal?" – Are we giving God the first-fruits of our resources (Time, Money, Talent, Affection, Gain, etc)
- Do you commit adultery? -
  - in the mind – same as the real thing
  - Spiritually – James – friendship with the world's system
- Do you rob temples – do you commit acts of sacrilege ?
  - Jews could not be implicated in idolatry under Babylonian / Roman occupation
  - They robbed God in tithes/offerings,
    - redirecting (Corban),
    - profaning the temple robbing of prayer etc.

We might look at this as not sinning outwardly, but sinning inwardly.

- Ever known a polished saint who gave those hateful gazes at a hippie/hat wearing doper who trots into church?
- Be careful. As one thinks within himself so is he.

Physically – in our world, Can we afford to sin it up once in awhile when we're out and about? Why not? ruin our witness

Explain alcohol if it is appropriate

At least can we afford to let sin fantasy reign in our minds if we promise to keep it there?

- No – as a man thinks within himself, so is he
- example above – our physical brains REWIRE to resemble our minds. How does that even work, I thought we were supposed to have the mind of Christ?
- Can both bitter and sweet water come out of the same spring? James 3 “these things ought not to be this way” –
  - gives you insight into how powerful sin is

This is a series named Compassion.

Why? Because tying this together: we want to know how to interact with (the ungodly) – homosexuals, gender benders etc.

- They are deceived into sin.
- We are not in their sin.
- Sin begins in the mind.
- We ALL sin in our mind
- Therefore we are all shut up under sin
- I am free to have compassion on him/her because I am just like him except for God's grace in my life!
