

12/3/23

Welcome / Prayer

Just be aware. <https://reason.com/2023/11/20/rand-paul-fda-animal-testing-regulation/>

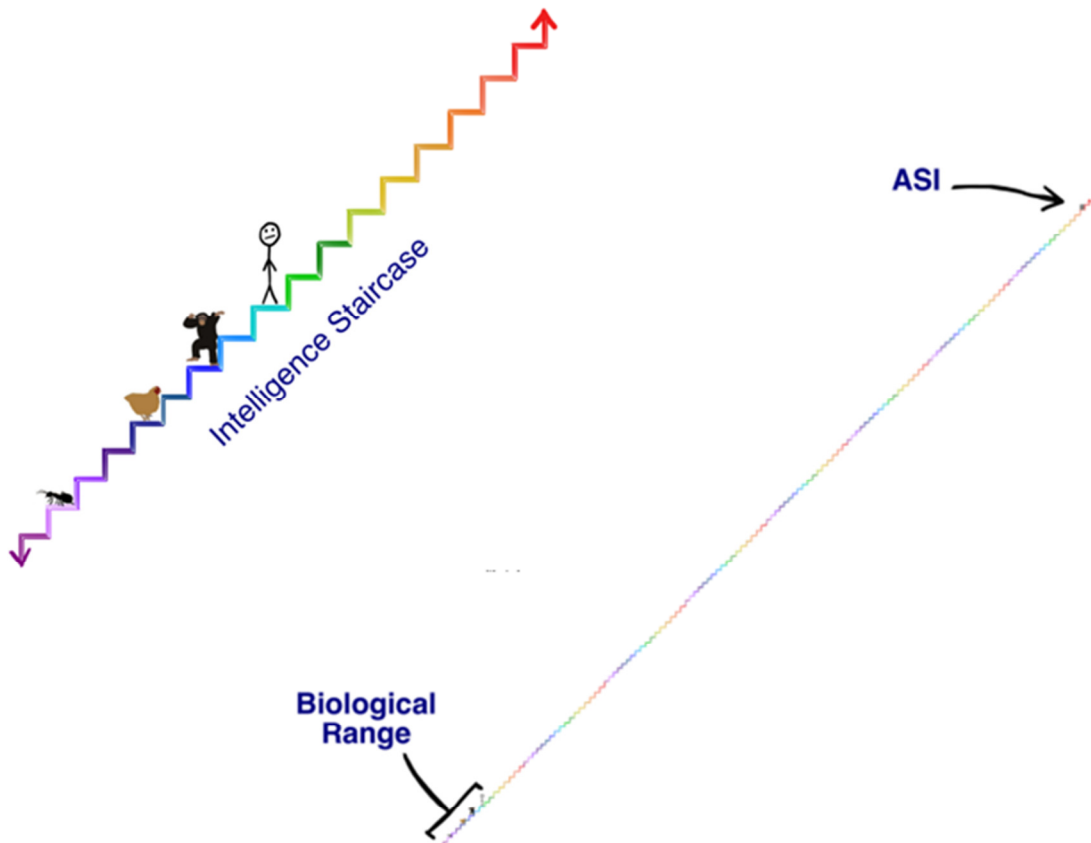

- Applicable law says, "not required", FDA hasn't updated its regulations. Wonder why? hahaha.
- We live in the info age
- You have a pocket supercomputer
- You have all the resources necessary to be an informed consumer in what you allow in your body

- Rothschild Wants Merger Between Corporations, Governments, & AI To "Save Capitalism"
- The idea is simple: Bring the majority of corporations into line with the far-left political order. Once this is done, they will force those companies to use their platforms and public exposure to indoctrinate the masses.
 - See it currently with "DEI moments" / pushing ESG
- Keep in mind that the only way such companies would be able to survive after being shunned by the majority of the public is if they join with governments, are handed a state sponsored monopoly and are supported by perpetual subsidies.
 - Saw this with making them force us to take untested vaccines during covid
 - and what are you seeing regarding fallout for covid vaccines now?
- The group is headed by Lady Lynn de Rothschild of the notorious Rothschild dynasty

Discuss Sam Altman

Fired because he didn't make known to the board what happened in their lab (Q* project) achieved artificial general intelligence?

"was in the room when we sort of pushed the veil of ignorance back and the frontier of discovery forward..."

Engineers all threatened to quit, brought back, fired (almost) entire board (reverse coup)

Bret Taylor – Twitter board chair before Elon, when twitter was used as FBI govt front disinfo campaigns during 2020 elections

suppressing highly qualified med docs in covid

Lawrence Summer – new board member = Bilderberg steering committee member

Repealed glass steagall → 2008 collapse, profited all along

Super ties to Epstein

Up for 2 positions @ same time – 2013 chair of fed? or Gov of bank of Israel recommended by Netanyahu.

1991 head world bank said, "shouldn't the world bank be encouraging more migration of the dirty industries to Least Developed Countries? reason 1, 2, etc... reason 3 = I think the economic logic behind dumping a load of toxic waste in the lowest wage country is impeccable and we should face up to that.

These 2 guys on the board of a company set to go public and become a mega corp that will shape the existence of mankind.

Altman is 2022-2023 Bilderberg Group attendee

Noteworthy attendees 12 list included him with Bourla, Kissinger and other AI heavy weights

2023 AI is top of agenda for Bilderberg Group

Wants to scan everyone's eyes for Worldcoin project.

In Orion's Arm (open science think tank, future of humanity), higher-toposophic AI are capable of internally simulating millions of human-level intelligences and having conversations with themselves, and they talk to other AI by sending them data bursts measured in petabytes instantly, making the pace of human conversation seem glacial by comparison. Their internal states are completely unknowable. They may as well be gods.

Now, think of what the WEF have been saying. We'll reduce biology to data (i.e. in silico models and molecular dynamics simulations of organic processes), and then convert that data back into biology, and so on. Not only are we developing AI capable of producing reasoning that defies human analysis, we are giving them a direct interface with the biosphere.

How long before the first superintelligent AI describes how to encode itself into an alternate substrate, like DNA origami, protein-ligand interactions, and so on, to make a "molecular intelligence" of a kind?

I shouldn't have to explain why this is a bad thing.

True Superintelligent AI will produce solutions to mathematical, logical, and scientific problems that are not only beyond human reach, but beyond human analysis.

If you can't analyze a system because it's too complex for human reasoning, then you don't know what it's for. If you don't know what it's for, then you don't know if it's malicious or not.

Point – "Thousands of years into the future" is ridiculous. This will happen just like that infographic I showed you.

- One of these days we need to consider what we have seen vs Revelation

- Rev 13: 13And the second beast performed great signs to cause even fire from heaven to come down to earth in the presence of the people. 14Because of the signs it was given to perform on behalf of the first beast, it deceived those who dwell on the earth, telling them to make an image to the beast that had been wounded by the sword and yet had lived. 15The second beast was permitted to give breath to the image of the first beast, so that the image could speak and cause all who refused to worship it to be killed.
- Ever consider how A.I. fits into this?

Review – (from prev. Habits slide)

We covered the habit loop,

Remember what a cue is? it's a trigger

- smell of cake
- watching someone light a cigarette
- hearing left-wing wokers talk (LOL)
- Matthew 5 Looking to lust for a woman -

What interrupts the cue?

- You being aware / living intentionally
- Your prayer time sensitizes you to the Holy Spirit's promptings
- **What might His prompting be? example?**

What's the new routine?

- It's the Word of God.
- Matthew 5 pluck it out / cut it off – remove any intention, stop any way to execute

What's the new reward?

- Acceptance, a new nature
- **I thought we got the new nature automatically?**
- **2 Peter 1:** Grace and peace be multiplied to you in the knowledge of God and of Jesus our Lord; 3 seeing that His divine power has granted to us everything pertaining to life and godliness, through the true knowledge of Him who called us by His own glory and excellence. 4 For by these He has granted to us His precious and magnificent promises, so that by them you may become partakers of the divine nature, having escaped the corruption that is in the world by lust.

(review continued)

we went on to talk about big picture thinking (**Eyeglass detective slide**)

And "Set your mind" = Gr. "Phroneo" means to

- exercise the mind on
- take intentional interest in, focus upon, make issue of

Examples ("set your mind" / "Observe") were passages that "set their minds on earthly things", and who "observed" this day or that

Then we said what's the opposite word for this? Because we're supposed to set our minds on things above, So what's the opposite of thinking on things above?

Gr. Kataphroneo;

Hebrews 12:2 fixing our eyes on Jesus, the author and perfecter of faith, who for the joy set before Him endured the cross, despising the shame, and has sat down at the right hand of the throne of God.

despising the shame – what do you think of when you hear ‘despise’?

- view down, i.e. with a negative (hostile) outlook;
- esteem lightly, seeing as insignificant or detestable;
- to treat with contempt or disregard; devalue; to depreciate (scorn);
- pay no regard to (because something seems of no account);

Matt 6:24 "No one can serve two masters; for either he will hate the one and love the other, or he will be devoted to one and despise the other. You cannot serve God and wealth.

- Jesus said if anyone coming to Him doesn't hate his own father/mother, wife/children/brethren/his own life more than Him they cannot be His disciple,
- 'hate' = miso = love less by extension; in comparison to the one you love, you hate this other one
- 2nd half of this verse 'or he will be devoted to one and kataphroneo the other'

Starting to see how 'hate' doesn't mean, "I love the one master and now I want to kill the other one"

Matt 18: "See that you do not despise one of these little ones, for I say to you that their angels in heaven continually see the face of My Father who is in heaven.

How many people have ever wanted to banish children to a deserted waterless foodless island near Haiti somewhere?

You know, the place we want to put all the warmongers and Albert Bourla?

Hopefully nobody.

But how easy is it when a child comes up and trainwrecks a serious conversation to think, "Get out of here, Kid" ?

i.e.

- You aren't adding anything to this
- You aren't important right now
- I am annoyed by your presence, I have no good affections for you

THAT response, whether by thought or by action is precisely this word *kataphroneo*

That is exactly why some translations in Col 3:2 say, "Set your affections on things above..."
