Remember discussing increase in violence since covid & shots?

- McCullough & other high level docs have a new study in pre-print
- analyzed data sourced from CDC and FDA databases,
- Investigates assn between mRNA vaccines and neuropsychiatric conditions

Results:

- 118-fold increase in cognitive adverse events
- alzheimers, dementia, strokes, mental fatigue
- 115-fold increase general psychiatric conditions
- 80-fold increase in suicidal and homicidal outcomes

Tenpenny – these points, “provide a clinical explanation for the behavioral changes many have observed in individuals who have received multiple COVID-19 shots—including increased anger, cognitive decline, and personality shifts. The study posits these are not coincidental but are potential complications of the injections.”

Want to take today & zero in on Daniel’s Fourth Beast, how it is fleshing out.

How Do RFID Chips Work In The Human Body?

- Came up with RF testing, finding frequencies at anatomical pts on human body
 - **JM** 20 Pro Frequency Detector and the ACECO FC1003 Frequency Reader
 - **Now** use non-linear junction detector (spy sweeper, like on movies)
 - \$20k you can buy one

- Put a clinic on in CA expecting a few, >hundred came; they knew this was an issue
- Military, Government, and citizens each have their own RF footprint
- European gov agency called to test diplomats, used an RF chamber to isolate & test
- **They** found RF emissions on specific anatomical areas on the body, depending if you were citizen, soldier, or prisoner: those 3 categories.

SHOCKING: Former Pentagon Official Greg Edgreen Joins the Show on Havana Syndrome: U.S. Is Facing Attacks on “Our Best People”

Apr 4, 2024

Gregory Edgreen, retired Army colonel, national security expert, and CEO of Advanced Echelon LLC, joined the Guy Benson Show today to discuss the shocking reports of Havana Syndrome, an illness with permanent symptoms with possible Russian ties. Guy and Greg go in depth into the syndrome and why providing care is so important for the victims (who have been largely neglected in their care thus far). Listen to the full conversation below.

(54) Title: CRYPTOCURRENCY SYSTEM USING BODY ACTIVITY DATA

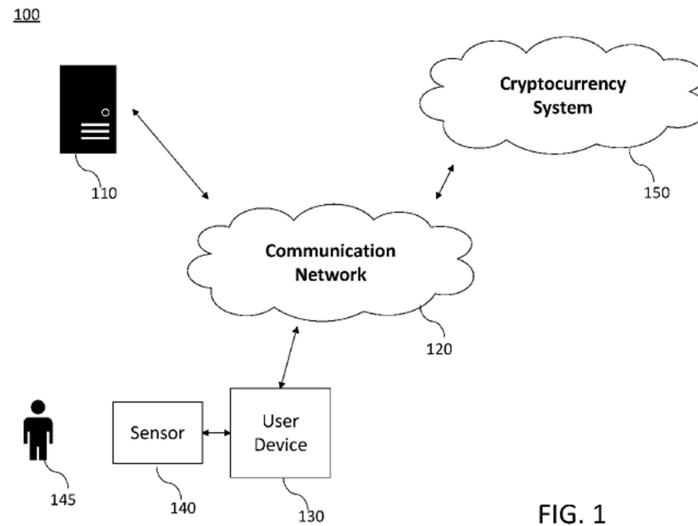

FIG. 1

(57) **Abstract:** Human body activity associated with a task provided to a user may be used in a mining process of a cryptocurrency system. A server may provide a task to a device of a user which is communicatively coupled to the server. A sensor communicatively coupled to or comprised in the device of the user may sense body activity of the user. Body activity data may be generated based on the sensed body activity of the user. The cryptocurrency system communicatively coupled to the device of the user may verify if the body activity data satisfies one or more conditions set by the cryptocurrency system, and award cryptocurrency to the user whose body activity data is verified.

Nanotechnology in Food Interactive Tool

Nanotechnology is a powerful but novel platform for taking apart and reconstructing nature at the atomic and molecular level with ramifications. Common food-related products that contain nanotechnology include candies (M&M's, Skittles), baby bottles, and pharmaceuticals. Nanomaterials create novel risks that require new forms of toxicity testing, very little testing and regulation of these new products. CFS built this database as a step to fill the information gap, to alert consumers of just how widespread this technology is, and to

Imagine a world where wireless devices are as small as a grain of salt. These miniaturized devices have sensors, cameras and communication mechanisms to transmit the data they collect back to a base in order to process. Today, you no longer have to imagine it: microelectromechanical systems (MEMS), often called motes, are real and they very well could be coming to a neighborhood near you. Whether this fact excites or strikes fear in you it's good to know what it's all about.

The frequencies they are detecting are all registered in NATO databases

Each frequency can be traced to a corporation or government entity ie we can know who your body is talking to.

People who have this tech in them are “homo borg genesis” – WEF, Yuval Harari, Todd Callender remember??

Putin says 1st person to master psychotronic weapons will rule the world

(because they can implant memories – they described it in gross detail about disney world etc.)

Remember me showing you MAC addresses in graveyards? His crew verifies this.

Point: many of us are already tagged

Why am I telling you all this?

Beltran's points rely heavily on how suggestible a person is. (how weak your mind is)

Christian leaders ALL across the spectrum have said 4th turning get in shape phs/spir/mentally.

[2Tim1:7 For God has not given us a spirit of fear, but of power and of love and of a sound mind](#)

Again

[Rom 12: 1 Therefore I urge you, brethren, by the mercies of God, to present your bodies a living and holy sacrifice, acceptable to God, which is your spiritual service of worship. 2 And do not be conformed to this world, but be transformed by the renewing of your mind, so that you may prove what the will of God is, that which is good and acceptable and perfect.](#)

What can we do about it?

He mentioned the same thing I told you about months ago, HIGHLY refined zeolite

Best known product is Master Peace

People get on me that there's not enough out there on this. well??? It's Daniel's 4th beast. what did you THINK it would look like? Beast – with –instruction – manual???

Nicotine is also being noted to destroy graphene oxide in the body & other nanotech. Patch.

Meanwhile, what we study is

- Diane Keaton dies at 79,
- Dangerous noreaster coming,
- Trup meets with G20 summit leaders
- Government is shut down

So...

Have a sound mind – BE / live in scripture. Jesus gets His time!!

be informed.

Be self sufficient so you can share with others.
