

4/22/23

Welcome – storm season?

Prayer

News

[Rasmussen Reports](#) – from Wisconsin legislature

- Dominion voting system connected to internet on election night (lied, said they weren't)
- ESS system connected to internet on election night (other brand voting machine)
- Election administrator Mike Rubenstein broke the law on after-hours ballot reception

[CDC.GOV](#)

- When HCWs are working longer hours without a break while continuously wearing an N95 FFR, blood CO2 levels may increase **past the 1-hour mark**, which could have a significant physiological effect on the wearer
- Duhh

[CDC](#) Director Rochelle Walensky Finally Admits Vaccinated Individuals Can Spread COVID Virus

- This after warning that vax misinformation is a public health menace
- And for 2 years she pushed the lie that the vax prevents infection and transmission

[Biden](#) rule to redistribute loan costs to good-credit borrowers

Experts believe that borrowers with a credit score of about 680 would pay around \$40 more per month on a \$400,000 mortgage under rules from the Federal Housing Finance Agency that go into effect May 1, costs that will help subsidize people with lower credit ratings also looking for a mortgage

ChatGPT

[The](#) Italian authority says OpenAI is not being transparent about how it collects users' data during the post-training phase, such as in chat logs of their interactions with ChatGPT.

OpenAI's violations are so flagrant that it's likely that this case will end up in the Court of Justice of the European Union, the EU's highest court, says Lilian Edwards, an internet law professor at Newcastle University.

[NYC](#) Mayor, Eric Adams on carbon emissions

[Pfizer](#) safety study data dumps – for some casual reading:

- 11% pregnant mothers injected had spontaneous abortions right there
- In another set of 248 cases – 51 spontaneous abortions out of 248 cases (over 20%)

SOLUTIONS –

[Pete](#) McCullough: We have the ability to trick the body into producing things for deficiencies e.g. Fabry's Disease

- (red spots all over / on the body)
- Mayo Clinic talks about producing alpha galactosidase for this

The vaxXine tricks the body into producing a PATHOGEN that does not break down, indefinitely

McCullough: "How do I get this out of my body?"

- [Nattokinase](#), McCullough says, holds the greatest promise out of any other detoxification agent of which he is aware. And the best part is that it is relatively inexpensive, and is sold over the counter as a dietary supplement.
- "[Nattokinase](#) is dosed in fibrinolytic units (FU) per gram and can vary according to purity,"
- in humans that after a single oral dose of 2000 FU, D-dimer concentrations at 6, and 8 hours, and blood fibrin/fibrinogen degradation products at 4 hours after NK administration elevated significantly
- The second experiment demonstrated that nattokinase degraded the Spike protein in SARS-CoV-2 infected cells

- Thus an empiric starting dose could be 2000 FU twice a day.

Final section on Compassion

Original question – “how do we deal with gay people since this is ‘a thing’ now?”

13-week long answer? We share the GOSPEL with them

- (I may not be very good at this, but I sure am slow)

First we seek to understand them, where they are coming from

- Then we apply God’s word to their situation
- Then we share the good news that God is trying to tell them
- Then we share Jesus, the foundation & author of our faith

We dove into a case study – someone who is sold into their sin with no way out (last week)

This final week we consider a 2nd case study, someone who has a hardened heart

Hardening:

What does it mean to harden?

- to indurate, to make stubborn or obstinate
- to make callous or *obdurate*
Obdurate –
 - not changing in response to argument or other influence
 - stubbornly impenitent

You might say they have lost their sensitivity to what makes us cringe

Do you know anyone like this?

Jeremiah 8 – He’s lamenting America

4So you are to tell them this is what the LORD says:

“Do men fall and not get up again?
Does one turn away and not return?
5Why then have these people turned away?
Why does Jerusalem always turn away?
They cling to deceit;
they refuse to return.
6I have listened and heard;
they do not speak what is right.
No one repents of his wickedness,

asking, 'What have I done?'
Everyone has pursued his own course
like a horse charging into battle.
Even the stork in the sky
knows her appointed seasons.
The turtledove, the swift, and the thrush^a
keep their time of migration,
but My people do not know
the requirements of the LORD.

How do people get like this?

We know willful unconfessed sin hardens

Heb3:13 But encourage one another day after day, as long as it is *still* called "Today," so that none of you will be hardened by the deceitfulness of sin.

So what if your heart is hard?

Ro 2:5 But after thy hardness and impenitent heart treasurest up unto thyself wrath against the day of wrath and revelation of the righteous judgment of God;

What happened to Pharaoh as he kept disobeying?

- He hardened / God hardened his heart. Sin hardens.

When Moses was essentially 2nd in the land, he murdered an Egyptian.

What did he do next?

would you call that a promotion?

How did he respond the next time God interacted with him at the burning bush?

What's the difference between Moses and Pharaoh then?

- Their thoughts determined who they would become
 - **Prov 23:7** For as he thinketh within himself, so is he
 - Moses thought himself a penitent man under a holy God, was soft and pliable
 - Pharaoh thought himself divine intermediary, a god-in-the-making,
 - God's judgment 'softened' Moses and hardened Pharaoh
 - FYI: MMA 'soften' means to get the opponent to be more pliable to get the hold you want, by beating him into becoming pliable
 - Beating on flesh makes it more pliable
 - Beating on a pottery statue will only break it into permanent ruin
 - **Pr 29:1** ¶ A man who hardens *his* neck after much reproof Will suddenly be broken beyond remedy.
 - Now we can better understand how God's judgment can affect
