U.S. representative for Tennessee's 2nd congressional district Tim Burchett

- Americans deserve transparency regarding the investigation launched by the House Oversight Committee into missing scientists with ties to UFO research.
- “We’ve had testimony. You’re seeing 11 people have either died or disappeared that have been close to this issue, whether that’s a coincidence or not,”
- Nearly a dozen researchers or people with links to aerospace or defense programs have disappeared or died in circumstances that some observers have deemed suspicious, including retired Air Force Maj. Gen. William McCasland, who is said to have overseen classified government programs that intersected with UAPs.

werner von braun –

- Werner Von Braun, the Nazi scientist who was brought to the USA to head up our space program as a part of Operation Paperclip, confided in his secretary, Dr. Carol Rosin, that the last deception or “card” to be played would be the threat of an alien invasion.
- (see pic of von braun and walt disney)
- We have been groomed by NASA to believe in outer space and space travel since Von Braun and disney von braunWalt Disney teamed up to promote the fantasy in the 1950’s.

We all believe this but don’t consider that paperclip was to bring all kinds of nazi scientists over- can read about.

don’t forget tom horn / exo vaticana

Remember Chuck Missler. “God, send us strong leaders to help us” – Chuck was one of them.

- He reviews UFO reports using pilot sightings, radar data, and government/military records, treating them as credible evidence that something unexplained is happening.
- He examines abduction accounts, especially elements like paralysis, telepathy, and fear, and compares them to demonic or spiritual encounters described in scripture.
- He connects modern UFO narratives to biblical passages about angels, fallen beings, and the Nephilim (Genesis 6).

HOW THE CHURCH WILL FRACTURE DURING ALIEN DISCLOSURE

The Disclosure Event Will Not Create Division — It Will Reveal It

Alien disclosure will not cause the fracture. It will expose the fault lines already running beneath the surface of the modern church.

The moment the narrative enters the global atmosphere, every believer will be forced into an interpretive decision, they will honestly ask what is this? How should we understand it? What does Scripture actually say?

what do you think you’ll hear for answers in the mainstream churches

(Clergy response team)? – same guys telling everyone Jesus would have needed the covid vaccine??

- TD Jakes
- warren
- Osteen

- Franklin graham

The fracture will appear instantly because the church is already divided in its foundations.

The author says

Four Distinct Groups Will Emerge

The church will split into four interpretive camps, each shaped by its existing architecture of belief.

### 1. The Fearful — Those Who Collapse Under the Atmosphere

These believers will experience disclosure as:

- threat
- destabilization
- existential fear
- prophetic confusion

They will interpret the moment through anxiety rather than Scripture.

They'll be vulnerable to:

- false prophets
- apocalyptic hysteria
- survivalist movements
- emotional manipulation

Their fracture is emotional.

### 2. The Fascinated — Those Who Merge Christianity With Alien Mythology

This is the most spiritually dangerous group.

They will reinterpret:

- angels as extraterrestrials
- demons as hostile species
- the Nephilim as hybrids
- the return of Christ as a cosmic visitation

They will merge biblical language with alien cosmology and call it revelation.

This group will produce:

- new teachings
- new "prophetic" voices
- new hybrid doctrines
- new spiritual movements

Their fracture is theological.

### 3. The Dismissive — Those Who Deny the Spiritual Dimension Entirely

These believers will say:

- “This is all government manipulation.”
- “This has nothing to do with the supernatural.”
- “This is irrelevant to faith.”

They will cling to rationalism and refuse to interpret the moment spiritually.

Their fracture is intellectual.

#### 4. The Remnant — Those Who Interpret the Moment Through Scripture

This group will remain:

- calm
- anchored
- discerning
- Christ-centered
- covenant-aligned

They will recognize that the world is not encountering extraterrestrials but a new vocabulary for ancient spiritual realities.

Their fracture is separation, not from the faith, but from the systems collapsing around them.

#### Why the Fracture Will Be Immediate

Alien disclosure is not a slow deception.  
It is a framework that forces instant interpretation.

The moment the narrative is released, every believer must choose scripture or speculation, Christ or cosmic mythology, covenant or curiosity, or discernment or fascination.

This is why the fracture will be sudden.  
It is not a debate — it is a revealing.

#### The Hidden Fault Lines That Will Break Open

Alien disclosure will expose the following weaknesses already present in the church:

##### 1. Biblical Illiteracy

Many believers cannot distinguish:

- angels from aliens
- demons from “interdimensional beings”
- spiritual warfare from cosmic conflict

This makes them vulnerable to reinterpretation.

##### 2. Fascination With the Supernatural

The modern church is addicted to:

- signs
- wonders
- mysteries
- prophetic spectacle

Alien disclosure will feed this appetite.

### 3. Conspiratorial Thinking

Flat earth, Nephilim obsession, and Enoch fascination have already primed millions to expect a massive unveiling.

Alien disclosure will feel like the climax of their worldview.

### 4. Weak Christology

When Jesus is not the center, anything can become the center.

Alien disclosure will expose this immediately.

### The Most Dangerous Fracture: A New Hybrid Christianity

The greatest threat is not atheism.

It is syncretism, a Christianity blended with alien mythology.

This hybrid faith will reinterpret Genesis, including the book of Enoch. It will rewrite angelology, distort eschatology, undermine the incarnation, redefine the supernatural, and finally prepare the world for a counterfeit savior.

This is the group that will be most easily swept into the coming deception.

They will say:

- “The Bible was describing extraterrestrials all along.”
- “Jesus was an advanced being.”
- “The angels are our cosmic brothers.”
- “The return of Christ is a galactic event.”

This is the anti-gospel in cosmic clothing.

### The Remnant Will Stand — But They Will Stand Alone

The remnant will not fracture.

They will not panic.

They will not merge.

They will not dismiss.

They will interpret the moment through Scripture and remain anchored in Christ. They will discern the spiritual reality beneath the narrative, refuse to be swept into fascination and hold the line of covenant truth

But they will stand apart from the rest of the church.

Alien disclosure will not only fracture the church — it will reveal the remnant.
