Cows are killing our planet

- Since a large proportion of these cows and other grazing animals are meant for consumption, reducing the consumption of these kinds of meat (for brevity, call them 'red meat') could have significant environmental benefits
- Humans won't give this up on their own.
- Human engineering could help here. Eating something that makes us feel nauseous can trigger long-lasting food aversion. While eating red meat with added emetic (a substance that induces vomiting) could be used as an aversion conditioning, anyone not strongly committed to giving up red meat is unlikely to be attracted to this option. A more realistic option might be to induce mild intolerance (akin, e.g., to milk intolerance) to these kinds of meat. While meat intolerance is normally uncommon (Aparicio et al. 2005), in principle, it could be induced by stimulating the immune system against common bovine proteins. The immune system would then become primed to react to such proteins, and henceforth eating 'eco-unfriendly' food would induce unpleasant experiences

Matt Liao – WEF Bioethicist – his own words.

Calling balls & strikes, There's no hard line to Bill Gates. Instead, it's Oxitec's Malaria Program to

- engineer non malaria spreading non-biting male mosquitos,
- \$18M funded by Bill & Melinda Gates Foundation –

Then pivoting to agricultural pests – illness borne ticks / cattle ticks

- >\$7m in various grants / feasibility studies.

(See slide on Alphagal syndrome)

Note a rise in cases. This is serious.

It's a full-on autoimmune response requiring epinephrine.

You can die from this.

- Airway swelling,
- anaphylaxis,
- drops in blood pressure

[https://x.com/P\\_McCulloughMD/status/2060673416210825543](https://x.com/P_McCulloughMD/status/2060673416210825543)

McCullough discusses 96% remission using auricular acupuncture

- Based on chinese medicine
- McCullough is posting this.

Also – just Lyme's disease.

At the end of the day, how to keep ticks off of you?

<https://x.com/DrJackKruse/status/2060033799828979958>

Jack Kruse – love him, but he's almost impossible to understand when he's writing

He answers a post about why people have dismissed applying fine sulfur powder to legs, socks, shoes etc.

Mainstream entomology and centralized medicine dismiss this practice as a quaint piece of Southern folk remedy or a basic olfactory deterrent. They are completely blind to Stochastic Electrodynamics (SED), surface chemistry, and

Landauer's Principle: Elemental sulfur acts as a high-affinity, semiconductor spin-gating shield that alters the localized dielectric constant ( $\kappa$ ) of the skin boundary layer, making the tissue matrix completely un-readable and electromagnetically hostile to Proterozoic parasites.

See slide / chart on repellent

Why am I telling you this?

- Tick illnesses Clearly on the increase
- Rick – messed up.
- Our environment is changing. The metaphorical hornets are at work; whether man/nature/both?
- If we all get messed up and die, there won't be a church to go to.

Left off discussing Zerubbabel's people waiting 10 y before realizing by way of Haggai & Zechariah that God told them to rebuild, and to stop obeying orders that were contrary to what God said. We left off at free speech and how the bible will become hate speech (is, actually, but legally will become this)

- If it is against the law to smuggle marijuana and you know you could make a lot of money doing it & not get caught, would you?
- If it is against the law to smuggle bibles into China and you know you won't make a penny off it and could go to jail, or become an organ donor, would you?

Back to Ezra 5,

Then the people get a kick in the pants (seen above) and they start working again knowing they obey God in the face of adversity.

Will you have situations where God tells you to do something and then all Hell breaks loose against you?

Ez 5:<sup>3</sup> At that time Tattenai, the governor of *the province* beyond the River, and Shethar-bozenai and their colleagues came to them and spoke to them thus, "Who issued you a decree to rebuild this temple and to finish this structure?"

Along comes Tattenai.

- Tattenai sent a letter to the new Persian king, Darius, to inform on the Jews.
- He told the king about the Temple project and how his men questioned those managing it.
- The letter to Darius documented the answers they received from the Jews.
- The Jews said they were rebuilding the Temple because it had been destroyed by Nebuchadnezzar in the days of their father's faithlessness. They also claimed Cyrus the Great had decreed the rebuilding of the Temple in the first year of his reign.
- Tattenai asked Darius to have the royal archives searched to see if the Jews were telling the truth about Cyrus' decree or whether they were making it up.

Go back to Hag 1

2 "Thus says the LORD of hosts, 'This people says, "The time has not come, *even* the time for the house of the LORD to be rebuilt.'""<sup>3</sup> Then the word of the LORD came by Haggai the prophet, saying, <sup>4</sup> "Is it time for you yourselves to dwell in your paneled houses while this house *lies* desolate?"

“You say this must not have been the time to rebuild. But look around... you live in McMansions while My house lays desolate. This is right to you?”

Then God tells them to take inventory of their lack of success and figure out why they are failing.

<sup>5</sup> Now therefore, thus says the LORD of hosts, "Consider your ways! <sup>6</sup> "You have sown much, but harvest little; *you* eat, but *there is not enough* to be satisfied; *you* drink, but *there is not enough* to become drunk; *you* put on clothing, but no one is warm *enough*; and he who earns, earns wages *to put* into a purse with holes." <sup>7</sup> Thus says the LORD of hosts, "Consider your ways! <sup>8</sup> "Go up to the mountains, bring wood and rebuild the temple, that I may be pleased with it and be glorified," says the LORD. <sup>9</sup> "*You* look for much, but behold, *it comes* to little; when you bring *it* home, I blow it *away*. Why?" declares the LORD of hosts, "Because of My house which *lies* desolate, while each of you runs to his own house. <sup>10</sup> "Therefore, because of you the sky has withheld its dew and the earth has withheld its produce. <sup>11</sup> "I called for a drought on the land, on the mountains, on the grain, on the new wine, on the oil, on what the ground produces, on men, on cattle, and on all the labor of your hands."

What we eat, what we drink, what we wear (how we cover ourselves) – scale of 1-10, 10 being most important in this life on this plane of existence?

How do we ensure we have these (necessary) things?

Matthew 6: <sup>33</sup> "But seek first His kingdom and His righteousness, and all these things will be added to you

What about adversity?

Anyone else in Scripture see adversity? (discuss)
