

11/2/2025

Welcome / Prayer

I have been prompted by the Holy Spirit to consider big-picture acceptance of artificiality in our lives. I want to start showing you some of this.

Del Bigtree – huge proponent of informed consent. In fact, his organization is

ICAN – Informed Consent Action Network

Wanted a top level vaccine study: are kids healthier if vaxed or unvaccinated?

Found Dr. Marcus Zervos in 2017 (this is way before Covid, just vaxxes in general!)

<https://www.hsgac.senate.gov/wp-content/uploads/Siri-Testimony-1.pdf>

- Dr. Zervos is the Division Head of Infectious Disease at Henry Ford Health
- 33,000 team members, 250 locations
- Also co-director of Center for Emerging and Infectious Diseases at Wayne State U
- Principal investigator for pharmaceutical companies in vax trials.
- Very pro-vax.

The two agreed to do a study where Zervos would run it and show the world that vaccinated children were healthier.

Bigtree only had one real condition – whatever the study proves, you have to publish.

He agreed.

They did the study, completed in 2020, over 18,000 participants

Results:

The Henry Ford study found that vaccinated children had a statistically significant increased rate of various serious chronic diseases. For example, vaccinated children had 3.03 times the rate of atopic disease (a group of allergic conditions); 4.29 times the rate of asthma; 5.53 times the rate of neurodevelopmental disorder, which included 3.28 times the rate of developmental delay and 4.47 times the rate of speech disorder; and 5.96 times the rate of autoimmune disease. All of these findings were statistically significant.

Siri's senate letter also states: Dr. Zervos and Dr. Lamerato affirmed the study was well designed

They did not publish.

Bigtree kept asking when.

He said he did not want to publish for fear of losing his job.

So Del went undercover

- 13:08 to 15:37

Here are some facts:

- A vaccine bypasses your natural immune defense and hamper immune system response like phagocytes (engulf & destroy invaders)
- contain toxic ingredients, such as aluminum adjuvants, mercury (thimerosal), and other harmful chemicals. These toxins can accumulate in the body over time and contribute to chronic illness.
- They are sold by pharmaceutical companies
- The flu shot has NEVER been guessed right (RFK)
- Largely no long term safety data on them
- Companies that make them were made immune to lawsuits – can do anything and not get sued.

Somehow, we have been so brainwashed that this is normal, that when someone comes along and questions it, they get labeled what ? _____

We have soooo embraced this form of artificiality that when the genuine comes along we not only

- Fail to recognize it as such, we

- run it into the ground as heresy.

McCullough even called vaccination a religion. He's a born again Christian. He sees it for what it is. Do you?

How did we ever get to the place where we really believe our health comes in a syringe?

If your days be 70 and if due strength 80 (and that was THOUSANDS of years ago, how did we ever get to this place where....?)

What is the unpardonable sin? why is it unpardonable?

Matthew 12: ²² Then a demon-possessed man *who was* blind and mute was brought to Jesus, and He healed him, so that the mute man spoke and saw. ²³ All the crowds were amazed, and were saying, "This man cannot be the Son of David, can he?" ²⁴ But when the Pharisees heard *this*, they said, "This man casts out demons only by Beelzebul the ruler of the demons." ²⁵ And knowing their thoughts Jesus said to them, "Any kingdom divided against itself is laid waste; and any city or house divided against itself will not stand. ²⁶ "If Satan casts out Satan, he is divided against himself; how then will his kingdom stand? ²⁷ "If I by Beelzebul cast out demons, by whom do your sons cast *them* out? For this reason they will be your judges. ²⁸ "But if I cast out demons by the Spirit of God, then the kingdom of God has come upon you. ²⁹ "Or how can anyone enter the strong man's house and carry off his property, unless he first binds the strong *man*? And then he will plunder his house. ³⁰ "He who is not with Me is against Me; and he who does not gather with Me scatters. ³¹ "Therefore I say to you, any sin and blasphemy shall be forgiven people, but blasphemy against the Spirit shall not be forgiven. ³² "Whoever speaks a word against the Son of Man, it shall be forgiven him; but whoever speaks against the Holy Spirit, it shall not be forgiven him, either in this age or in the *age* to come. ³³ "Either make the tree good and its fruit good, or make the tree bad and its fruit bad; for the tree is known by its fruit.

Why can't they be forgiven?

They were so used to the fake / artificial THINKING it's of God that when Jesus showed up, they thought He was the devil!

Mark Twain is credited (only credited but no proof anywhere?)

It ain't what you don't know that gets you into trouble. It's what you know for sure that just ain't so.

When programming, when a problem is discovered you want to look for extent of condition, so you can fix that everywhere else to avoid other pitfalls later.

All this said, do you think it's important that we consider an extent of condition dealing with artificiality?
