

# Sermon Summary

## september 24 2023

### *Summary*

Pastor Carl discusses several signs that Jesus is preparing to return soon. He talks about how the enemy is trying to erase the name of Jesus from the world, and says perilous times will come as prophesied. He explains God's timing is based on fulfilling prophesied events, not human measurements. He gives examples of things no one could imitate that Jesus did, like feeding thousands and rising from the dead.

He draws a comparison to how God instructed Moses on preparing for his manifest presence. This involved setting borders at the outer court with sacrifices, then an inner court with more requirements. Only after consecration would God's presence appear.

Pastor Carl encourages listeners to prepare for God's presence by walking humbly with him, acknowledging him as Lord, and allowing him to make changes in their lives. He says we shouldn't take God for granted.

In closing, Pastor Carl states Jesus could return at any time, so believers must stay ready by having Jesus as their honored guest and priority. The overall message is that God wants fellowship with his people and is readying the church through signs and preparation for Christ's imminent return.
