discussion questions

1. Pastor Carl began the sermon by talking about how our physical bodies that we have now are only temporary "outer casings", while our true identity is found in our eternal, spiritual body which is our soul. How does this perspective shift the way we view our current circumstances and challenges? How can remembering our lasting spiritual identity help us maintain an eternal mindset and not get weighed down by the troubles of this world?
2. Pastor Carl talked about the importance of walking in the spirit instead of our own understanding and the things that we see with our eyes. What are ways we can practically cultivate a deeper awareness of the spiritual realm in our daily lives? What are some specific ways you can train yourself to be more attentive to God's voice and leading?
3. Pastor said something profound when he said, "Jesus learned to become willing to obey his Father's will, especially when the MAN didn't understand it." How do we walk in Jesus' example by stepping out in faith and obeying God even when we don't understand it? Have you had an experience like this in your life when you stepped out in faith to obey God even when it didn't make sense?
