A) The pattern of the prophets are consistent

- 1) Identify/Call out sin
- 2) Plead for repentance/humility
- 3) Offer of God's grace

As we are going through this Covid-19 reality, and after going through most of the Minor Prophets, how might we be equipped to apply our current circumstances and move through the above pattern?

What might be national sins? Personal sins?

How might we repent of communally? Personally?

What is our hope as a community? Personally?

B) God is sovereign in ALL things at ALL times. What does that mean for how we process our present situation? What have you heard that isn't right from the news, or friends?

C) It is always easier to DO something, than to BE somebody. When many of the things we usually would do have changed or closed, have you been less or more comfortable with your inner thoughts? How have your relationships been this week?

D) Satan is an accuser. How does he attack a Christian? What is his plan?

Prayer and praise
