

How **Far** Can You

**See?**

Greater **Vision** to see God's Will done in Your Life.

**But when social, economic,  
physical, and spiritual  
conditions allow, your success  
in almost everything is  
directly tied to how far into  
the future you can see.**

**A compelling Vision of the  
future produces the required  
long-term thinking, speaking,  
acting, and feeling that is  
necessary to accomplish the  
will of God in your life.**

**Luke 8:14-15**

**Jesus is looking for**

**soil** that can imagine

**fruit.**

**Christians are supposed  
to have the longest-term  
vision of any people on  
earth.**

**How far we can see will  
determine not only our present  
capacities, but our future success  
in that which matters most:  
accomplishing the will of God in  
our lives.**
