Worship as an Orientation

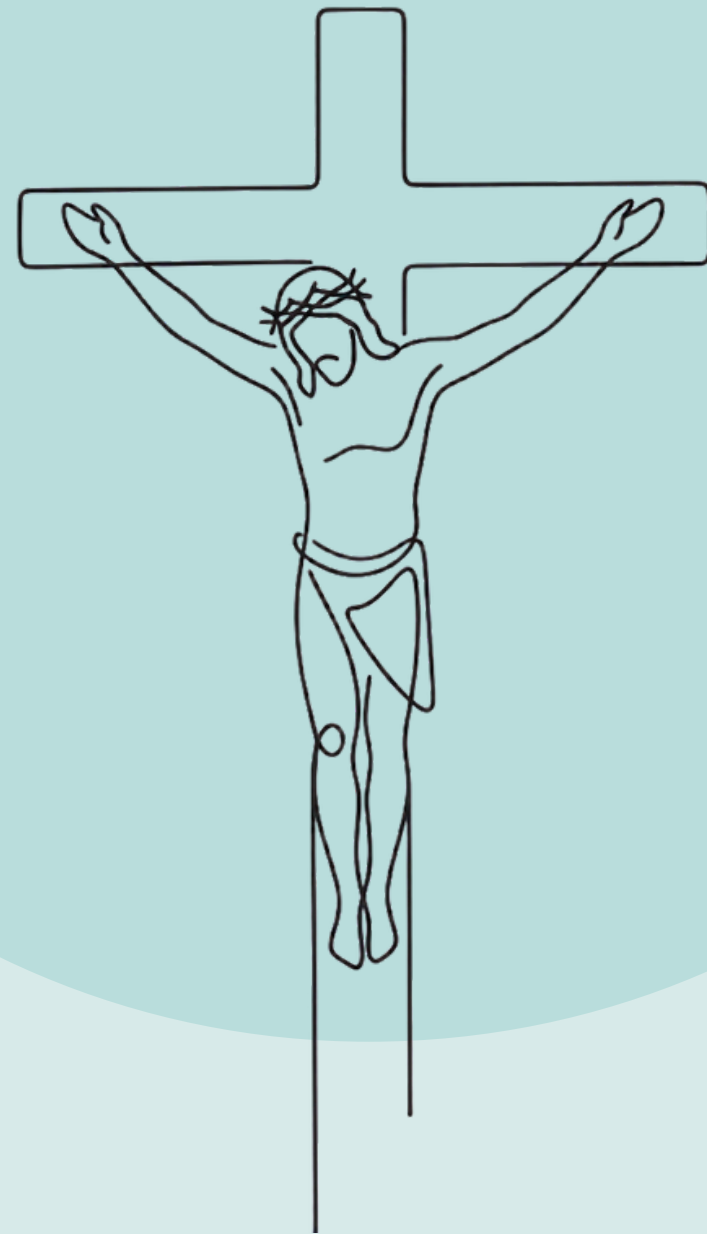

Aiming Our Hearts Together in Transformation

Worship is a demonstration of what you truly believe and an expression of what you truly treasure.

Christ has done
something
permanent us.

Paul is calling us to
do something
permanent as a
response.

When you sin, you have done so because something took the place of God in your heart and became an idol.

Corporate worship is a demonstration of the bigger things that are supposed to be going on inside the people

Paise & Gratitude

Brokenness & Surrender

Commitment & Response

Worship is
transformational because
it is orientational.

Worship should be transformational.
Because that what happens when the
orientation of your position to God is
corrected or demonstrated.
