

Walking in Wisdom

Week Seven - "Wisdom and Stuff"

Proverbs - a lot of them

Bottom line: We need to be wise with our stuff, but trust only in God.

1. How was money talked about and handled in your family when you were growing up?
2. The Bible writers have a lot to say about money and possessions. What are some of the things you've been taught, or things that stand out to you? Do you think you got the whole picture, or maybe only part of the picture?
3. What does it mean to say that money is amoral, not moral or immoral?
4. Read Proverbs 30:7-9. How can you avoid the temptations of both wealth and poverty? How are the temptations different? Which one feels more likely for you to fall into?
5. How are possessions both a good things, and also inferior to righteousness, humility, good relationships, wisdom, and fear of the Lord? What would you need to do or change to keep those priorities in order?
6. What are some of the things God has given you that you have, or need, to give to others?
