## **A SIX WEEKS COURSE – HOW TO STUDY GOD’S WORD**

Location, Location, Location! This phrase dates back to 1926, mentioned in the Chicago Tribune Classifieds. It was used in a way that indicates it was already a familiar expression. It was known as the gospel of real estate. How true this still is. Location matters! In Bible Study context is the driving principle for good and accurate interpretation. Context matters!

An illustration of taking a verse out of context – Numbers 14:28

Context begins with a word and how it relates to other words in a sentence, a sentence within the context of a paragraph, within a chapter, within a book. A book of necessity must agree with other books, be it in the Old Testament or the New Testament. The understanding of both the Old Testament and the New Testament must be in agreement as a whole. The more details you see in agreement from Genesis to Revelation will provide the demonstration of accurate interpretation.
