

Connect to Each Other

Discussion Questions:

What (if any) events, experiences, or people in this life have brought you the most satisfaction and fulfillment?

When (if ever) have you found satisfaction and fulfillment in God/faith/spiritual things?

Have you ever had a really positive “groups” experience in a church/faith setting? What were the elements or principles that made it so positive?

Have you ever had a “less than ideal” experience with groups in a church/faith setting? What elements were present that made it negative or missing that kept it from being positive?

Think of a friend group you have. What is the “common ground” you all share?

Why do you think connecting to faith and God is easier and/or more effective when connected to others?
