

### **Care Team Areas of Service**

All teams are made up of people who are able to help when available. When a need arises each team will be sent the need via Church Community Builder and will respond if they can help. Sign up for as many teams as you feel God leading you to today.

**Meals** - This team will receive a meal request via Church Community Builder with dates given for potential meals. If you are available just choose I'll take it and commit to delivering the meals. Meals can be homemade, purchased or even in the form of a gift card when applicable. We have a pretty good list of these folks already but can always use more people who are willing to jump on board and help.

**Funerals** - This is a group of people who will help out in the event of a funeral of a close loved one of a Phos family member. There are a variety of ways to serve which include, providing food, greeting for the funeral, set-up and tear down, serving, etc... These requests will be sent out via Church Community Builder as well.

**Prayer** - This is a team that is committed to praying for the Phos family. Prayer requests will be sent to you via Church Community Builder and you will lift them up to God and commit to pray for them on a daily basis. Updates will be given weekly. This team is in need of an administrator as well as people willing to follow up on prayer requests.

**Hospital Visitation** - This is a group of people willing to visit when Phos family members are hospitalized. Hospital visitation requests will be sent out via Church Community Builder and this team will choose whether or not they are free to make a visit that particular week. This is a team that we are in great need of members for. Once we have a substantial group of folks, Jeff will lead a short training for those interested. This is likely the one that seems the most intimidating to people but in reality is pretty simple and can mean the absolute most to someone who has been in the hospital for a while and needs a little love.

**Cards** - This is a group of people who will connect with phos family members and shut ins who are in need of a little encouragement. Requests for cards will be sent out via Church Community Builder and you will choose to send a card based on your availability. This team is in need of an administrator as well.

**Life Skills** - This is an area where Phos Family members who are gifted or trained in certain areas, could offer assistance and coaching to someone in need of help. An example could be an accountant offering financial coaching. Requests will be sent out via Church Community Builder.

**Other** - We are open to more care team ideas. If you have any thoughts on other ways you could care for our Phos family then this is your chance to share them.
