Deception #1

Israel is not God's people: The truth according to Scripture is that God has chosen Israel and will never forget or forsake them as His chosen people.

Deception #2

The land is called Palestine, not Israel. The truth is that the land has always been called Israel in the Bible and Palestine was a name given later for political reasons.

Deception #3

The Arabs were there first. The truth is that the land was sparsely populated when the Jews began returning and Nehemiah referred to the Arabs as having no heritage or right to the land.

Deception #4

Israel's occupation of the land is the problem. The truth is that Israel has a legal right to the land according to the Balfour Declaration and League of Nations mandate.

Deception #5

Peace in the Middle East is possible through political deals. The truth is that Scripture says the only lasting peace will come through Jesus, not any man-made agreement.
