If you had to finish the phrase, “Character is...” with your own words, what words would you choose?

How would you describe the ‘character’ you experienced for a few brief moments in the stories of Brandt Jean, David from 2nd Samuel and Anishinaabe elder Alma?

When have you been surprised and inspired by character?

If one definition of character is...how you treat those who can do nothing for you, then are you a person of character?  
Why or why not?
