The New Age

2 Thessalonians 2:7-12 New King James Version

7 For the mystery of lawlessness is already at work; only He who now restrains will do so until He is taken out of the way...

9 The coming of the lawless one is according to the working of Satan, with all power, signs, and lying wonders, 10 and with **all unrighteous deception among those who perish, because they did not receive the love of the truth,** that they might be saved. 11 And for this reason **God will send them strong delusion, that they should believe the lie,** 12 that they all may be condemned who did not believe the truth but had pleasure in unrighteousness.

Genesis 3 New King James Version

3 Now the serpent was more cunning than any beast of the field which the Lord God had made. And he said to the woman, “**Has God indeed said, ‘You shall not eat of every tree of the garden’?**”

2 And the woman said to the serpent, “We may eat the fruit of the trees of the garden; 3 but of the fruit of the tree which is in the midst of the garden, God has said, ‘You shall not eat it, nor shall you touch it, lest you die.’ ”

Genesis 3 New King James Version

4 Then the serpent said to the woman, “**You will not surely die.** 5 For God knows that in the day you eat of it **your eyes will be opened, and you will be like God,** knowing good and evil.”

2 Corinthians 11:14-15 New King James Version

14 And no wonder! **For Satan himself transforms himself into an angel of light.** 15 Therefore it is no great thing if his ministers also transform themselves into ministers of righteousness, whose end will be according to their works.

2 Corinthians 4:3-4 New King James Version

3 But even if our gospel is veiled, it is veiled to those who are perishing, **4 whose minds the god of this age has blinded**, who do not believe, lest the light of the gospel of the glory of Christ, who is the image of God, should shine on them.

Mystery Religion(s)

Hermeticism is a set of philosophical and religious beliefs based primarily upon the writings attributed to Hermes Trismegistus, an amalgamation of Hermes and Thoth.

The movement is generally traced to Alexandria in the first centuries of the Common Era, where it unified elements of Jewish and Christian mysticism with Hellenistic philosophy and Egyptian occultic beliefs. The resulting composite tradition proved to be both persuasive and perdurable, as it proved compelling to both Muslim scholars in the early Middle Ages and European intellectuals at the dawn of the Renaissance. In particular, the notion that the universe operated based on orderly principles

Hermes Trismegistus (from Ancient Greek: Ἑρμῆς ὁ Τρισμέγιστος, "Hermes the Thrice-Greatest"; Classical Latin: Mercurius ter Maximus) is a legendary Hellenistic figure that originated as a syncretic combination of the Greek god Hermes and the Egyptian god Thoth.

He is the purported author of the Hermetica, a widely diverse series of ancient and medieval pseudepigraphical texts that lay the basis of various philosophical systems known as Hermeticism.

Who is God in Hermeticism?

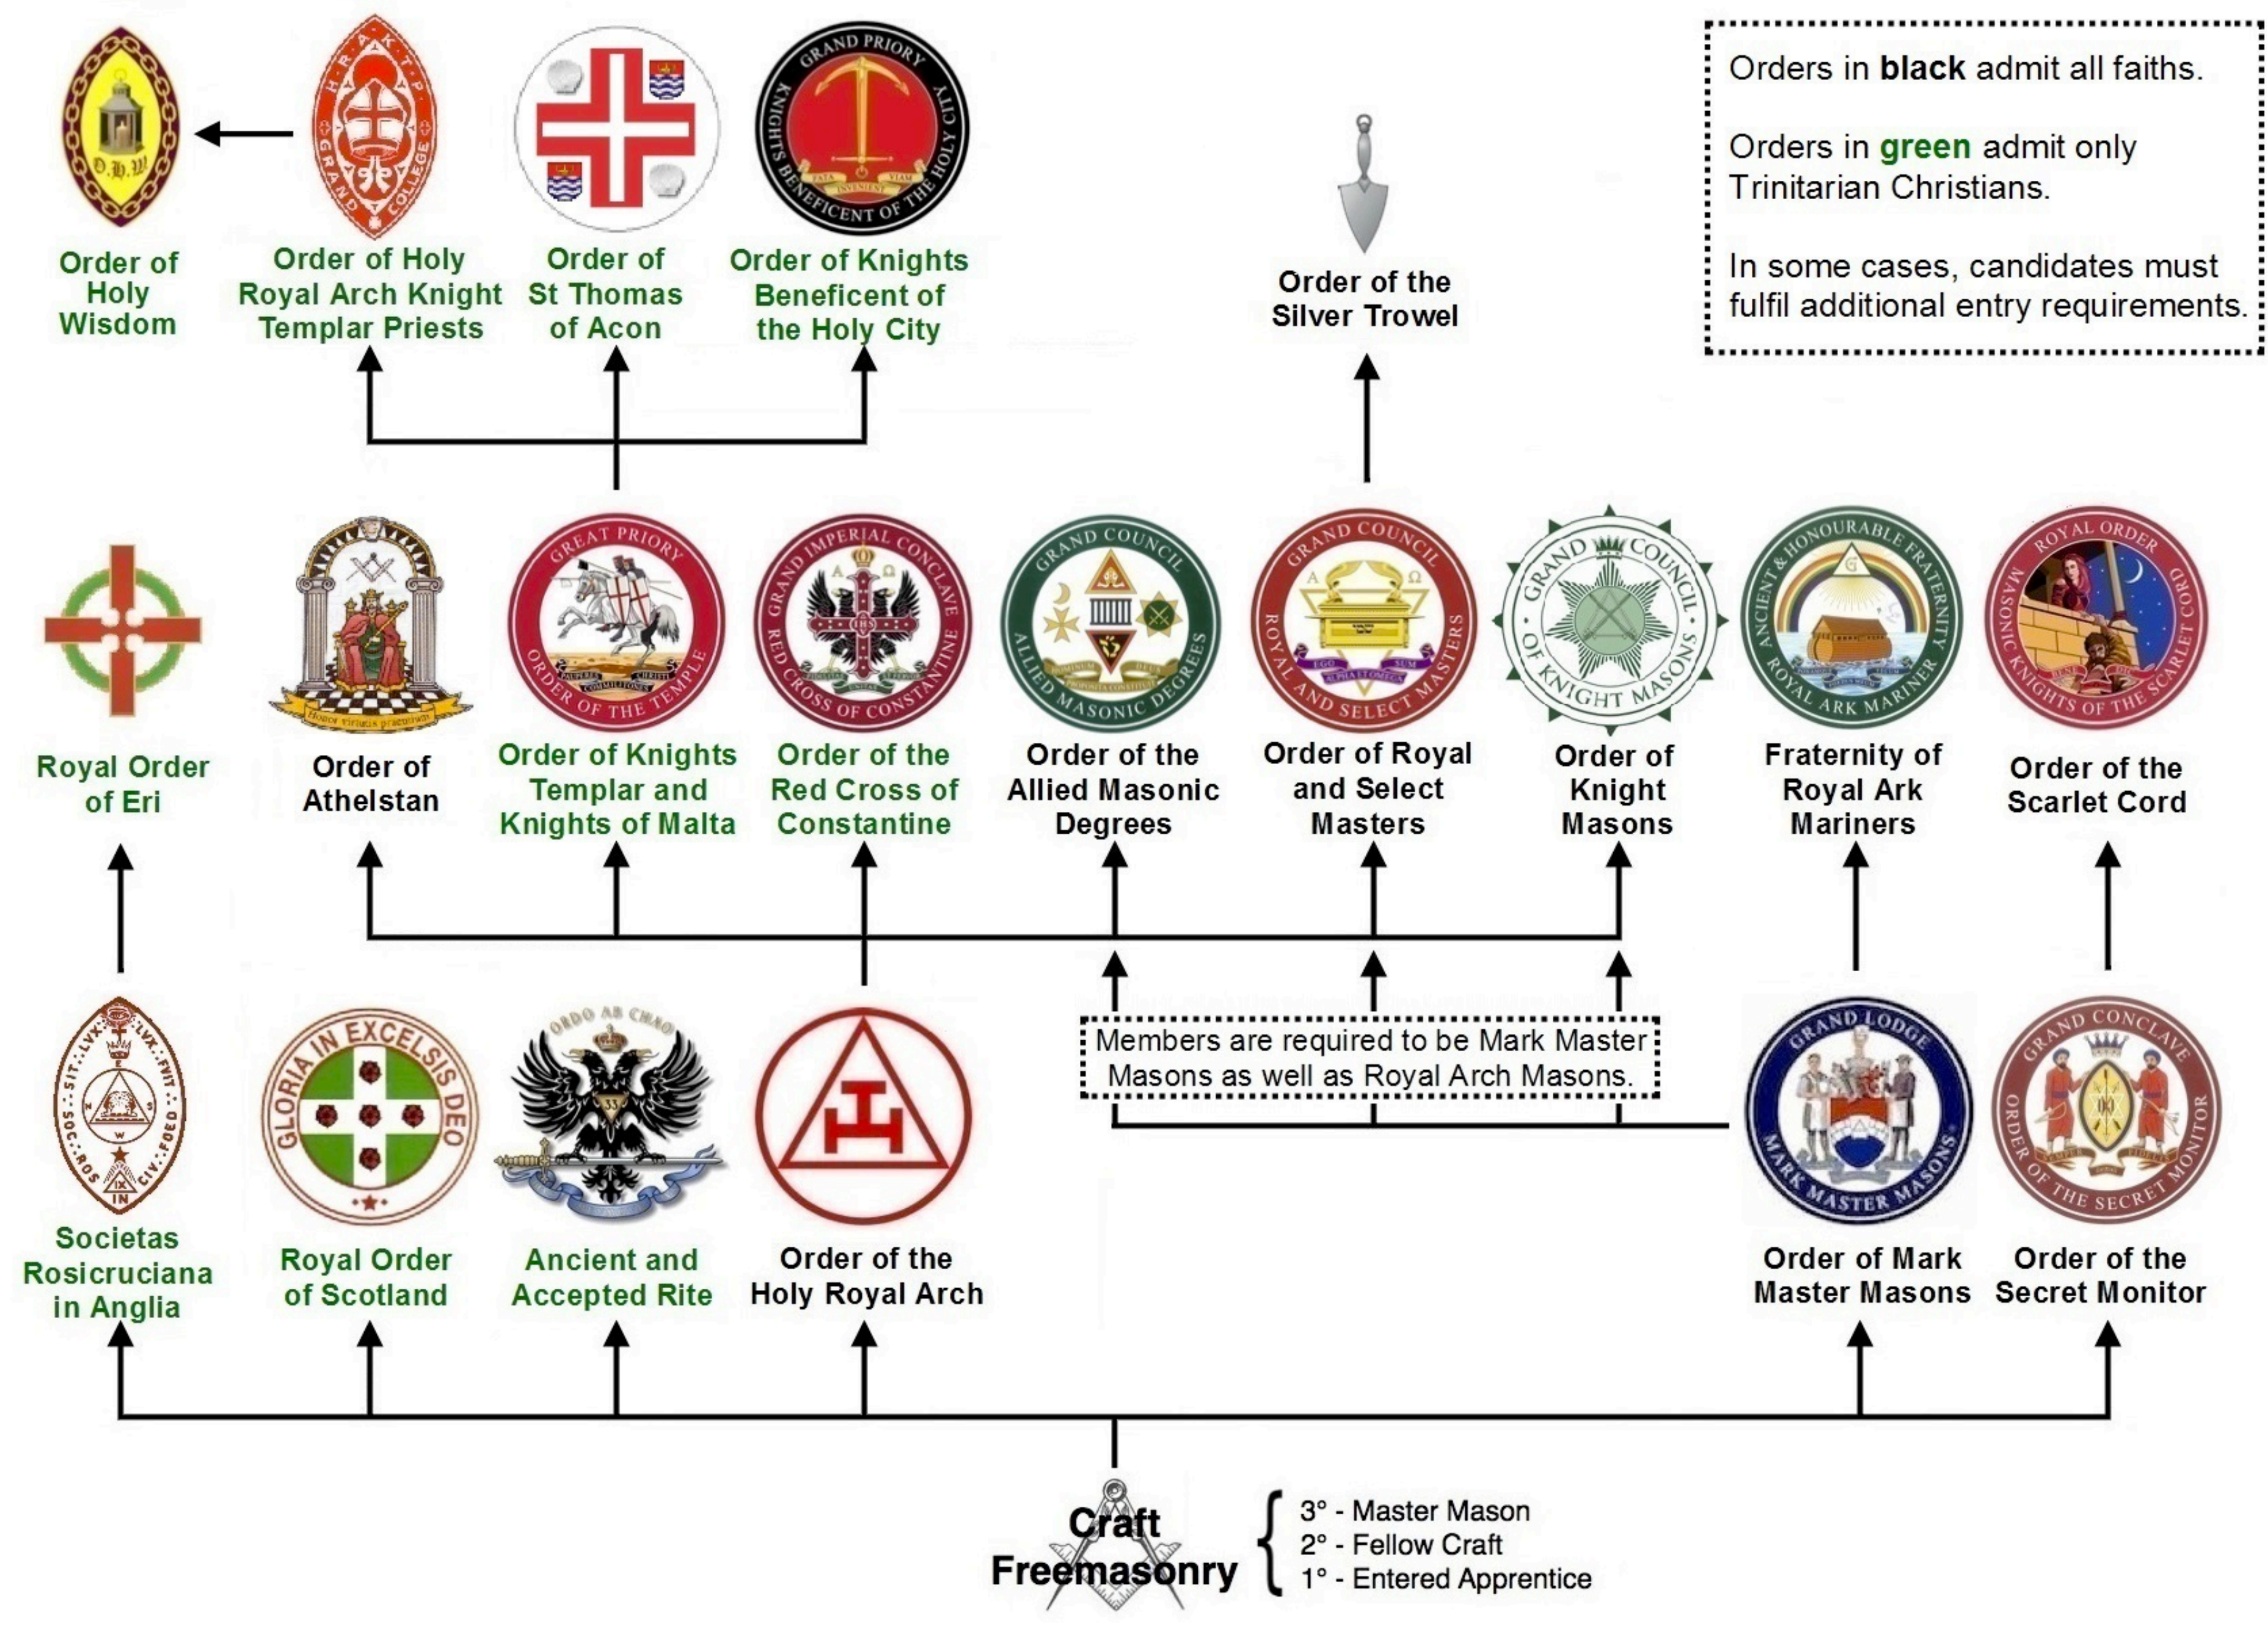

In the Hermetic view, God is both the all (Greek: to pan) and the creator of the all: all created things pre-exist in God and God is the nature of the cosmos (being both the substance from which it proceeds and the governing principle which orders it), yet the things themselves and the cosmos were all created by God.

The Seven Hermetic Principles – The Teachings of Thoth

1. The Principle of Mentalism
2. The Principle of Correspondence
3. The Principle of Vibration
4. The Principle of Polarity
5. The Principle of Rhythm
6. The Principle of Cause and Effect
7. The Principle of Gender

Quotes by Blavatsky

One of the most hidden secrets involves the so-called fall of angels. Satan and his rebellious host will thus prove to have become the direct saviors and creators of divine man.

Thus Satan, once he ceases to be viewed in the superstitious spirit of the church, grows into the grandiose image.

It is Satan who is the god of our planet and the only god.

Satan or Lucifer represents the Centrifugal energy of the universe, this ever living symbol of self sacrifice for the intellectual independence of humanity.

The Evolutionary Testament of Co-Creation

The Promise Will Be Kept

Barbara Marx Hubbard's extraordinary book offers an evolutionary, future-oriented perspective on the Gospels of Jesus Christ. Barbara reveals that many of the miracles Jesus performed are actually similar to those acts that we currently aspire to achieve today, but so often without consciousness of Christ love. This book builds on the great themes in the New Testament, such as Jesus' statement: "You will do the works that I do, and greater works will you do in the fullness of time..." and St. Paul: "Behold I show you a mystery, we shall not all sleep, we shall all be changed..."

These statements are coming true. The Promise is being kept. We are all being changed. We do have the power of what we called gods. We can destroy the world and we also can restore the Earth, evolve ourselves and all of society. This is the last trump, and the trumpet is sounding for our generation.

The Evolutionary Testament invites us to form Evolutionary Bible Study Groups to join together to consider and deepen the guidance for the meaning of our new Christ like powers to be used for a positive future for all Earth life.

The recent pandemic has reminded us of the deep connections between health and the environment. Adopting a One Health approach is critical not only to prevent outbreaks in zoonotic diseases, but also other urgent environmental issues including food safety and antimicrobial resistance. This page aims at listing the latest information, research, data and/or press releases issued by our partners in Geneva and other institutions around the world.

One Health Approach

One Health is an approach in which multiple sectors work together to achieve better public health outcomes ([WHO, 2017](#)). It is rooted in the recognition that human health and animal health are interdependent and bound to the health of the ecosystems in which they exist ([WOHA, n.d.](#)). The complex nature of the interactions between people, animals and plants renders this collaborative, multisectoral and transdisciplinary approach critical to addressing future health risks and challenges.
