## States Most at Risk for Billion-Dollar Climate Disasters

Natural disasters in the U.S. have increased significantly over the past few decades. Over the past five years, the U.S. has experienced an average of 18 billion-dollar climate disasters each year,<sup>[1]</sup> up from 6.7 billion-dollar disasters per year in the 2000s.<sup>[2]</sup> That includes 18 climate disasters in 2022, which caused a total of \$175.2 billion in damage.<sup>[1]</sup>

Facts about natural disasters reveal that some areas are more vulnerable to these disasters. To determine which states are most at risk for billion-dollar climate disasters, Forbes Advisor looked at data from the National Centers for Environmental Information over the past decade.

### Key Takeaways

- Texas tops the list of states most at risk for billion-dollar climate disasters, followed by Illinois, Missouri, Virginia and Georgia.
- Eight of the top 10 most disaster-prone states are located in the South, including Texas, Virginia, Georgia, North Carolina, Oklahoma, Alabama, Tennessee and South Carolina.
- Five of the top 10 least disaster-prone states are located on the East Coast, including Vermont, Maine, New Hampshire, Delaware and Rhode Island.
- Hawaii is the only state that didn't experience a billion-dollar weather disaster between 2012 and 2022.
- Severe storms caused the highest number of billion-dollar weather disasters over the past decade (99), followed by tropical cyclones (24), flooding (17), droughts (10) and wildfires (nine).<sup>[1]</sup>
- Between 2012 and 2022, tropical cyclones caused the most expensive damage among billion-dollar weather

28 Likewise also as it was in the days of Lot; they did eat, they drank, they bought, they sold, they planted, they builded;

29 But the same day that Lot went out of Sodom it rained fire and brimstone from heaven, and destroyed them all.

30 Even thus shall it be in the day when the Son of man is revealed.

## Luke 17:28-33 King James Version

31 In that day, he which shall be upon the housetop, and his stuff in the house, let him not come down to take it away: and he that is in the field, let him likewise not return back.

32 Remember Lot's wife.

## 1 Corinthians 15:51-53 New King James Version

51 Behold, I tell you a mystery: We shall not all sleep, but we shall all be changed— 52 in a moment, in the twinkling of an eye, at the last trumpet. For the trumpet will sound, and the dead will be raised incorruptible, and we shall be changed. 53 For this corruptible must put on incorruption, and this mortal must put on immortality.

## Revelation 1:18-20 New King James Version

18 I am He who lives, and was dead, and behold, I am alive forevermore. Amen. And I have the keys of Hades and of Death. 19 Write the things which you have seen, and the things which are, and the things which will take place after this. 20 The mystery of the seven stars which you saw in My right hand, and the seven golden lampstands: The seven stars are the angels of the seven churches, and the seven lampstands which you saw are the seven churches.

## Revelation 4: 1-2 New King James Version

### **The Throne Room of Heaven**

4 After these things I looked, and behold, a door standing open in heaven. And the first voice which I heard was like a trumpet speaking with me, saying, **“Come up here, and I will show you things which must take place after this.”**

Israel

The many prophecies pertaining to Israel

First Trumpet: One third of all the trees and all green grass are burned up (Rev. 8:7).

Second Trumpet: One third of life in the ocean is destroyed, and one third of all ships are destroyed, possibly by an asteroid hit, or a massive volcanic eruption. A “great mountain burning with fire” is “thrown into the sea” (Rev. 8:7-8).

Third Trumpet: One third of all water sources are contaminated when “a great star burning like a torch” falls on the rivers and springs. The star is called Wormwood (bitterness). Many are made sick and many die after they drink the bitter tasting water (Rev. 8:10-11).

Fourth Trumpet: One third of sunlight and one third of moonlight is darkened.

Dust may have been thrown into the atmosphere by an asteroid hit, blocking the sun, OR by massive volcanic eruptions, OR by a massive nuclear exchange. Growth of plants for food will be limited.

Fifth Trumpet: Those without “the seal” of God are tormented for five months (Rev. 9:1-11).

It would appear the Lord’s people are protected during this time, just as Israel was protected during the final seven plagues of the Egyptian slavery.

Sixth Trumpet: One third of mankind is killed by “fire, smoke, and brimstone” (melted earth) after “four messengers” headed for the Middle East, are released (Rev. 9:13-21).

This could be asteroid penetrations, but is most probably a great Middle East war, using weapons of mass destruction, perhaps fired from orbiting satellites.

Matthew 24:32-34 New King James Version

### **The Parable of the Fig Tree**

32 “Now learn this parable from the fig tree: When its branch has already become tender and puts forth leaves, you know that summer is near. 33 So you also, when you see all these things, know that it is near—at the doors! 34 Assuredly, I say to you, this generation will by no means pass away till all these things take place.

## Psalm 90:10 New King James Version

10

The days of our lives are seventy years;  
And if by reason of strength they are eighty years,  
Yet their boast is only labor and sorrow;  
For it is soon cut off, **and we fly away.**

*The recent pandemic has reminded us of the deep connections between health and the environment. Adopting a One Health approach is critical not only to prevent outbreaks in zoonotic diseases, but also other urgent environmental issues including food safety and antimicrobial resistance. This page aims at listing the latest information, research, data and/or press releases issued by our partners in Geneva and other institutions around the world.*

## One Health Approach

One Health is an approach in which multiple sectors work together to achieve better public health outcomes ([WHO, 2017](#)). It is rooted in the recognition that human health and animal health are interdependent and bound to the health of the ecosystems in which they exist ([WOHA, n.d.](#)). The complex nature of the interactions between people, animals and plants renders this collaborative, multisectoral and transdisciplinary approach critical to addressing future health risks and challenges.
